(a) All actions taken by the War Production Board under Order M-293 or under any of the provisions of other orders listed in Table 2 of that order with respect to the freezing of schedules or the approval of individual transactions remain fully effective as provided in Priorities Regulation 18 and are not affected by the amendment of September 17, 1943. (Insert statement of quantities required for specified primary product and end use for the sodium metasilicate ordered, in accordance with instructions in paragraphs (2) and (3) below)

The undersigned hereby certifies to the seller and to the War Production Board that the sodium metasilicate covered by the accompanying purchase order will be used only as specified above, and that the quantity of sodium metasilicate hereby ordered, together with all other quantities ordered for delivery in the same month, does not exceed 8000 pounds, anhydrous basis.

Name of purchaser

To all consumers of nickel chemicals and nickel catalysts, Subject: Form WPB-2873, formerly PD-27-B. Effective with application for nickel chemicals to be delivered during December 1943 it will not be necessary to file Form WPB-2873, formerly PD-27-B, for authorization to receive nickel chemicals and nickel catalysts pursuant to Nickel Allocation Order M-6-a, the uses of which are governed by Nickel Conservation Order M-6-b.

The following procedure is to be followed in the future:

PART 1075—CONSTRUCTION

[Conservation Order L-41 as Amended
November 1, 1943]

Conservation Order L-41 is hereby amended to read as follows:

§ 1075.1 Conservation Order L-41—(a)
What this order does. This order limits construction. It is necessary in order to conserve materials, construction equipment, labor and transportation. In most cases, except where the construction is of a special kind, you must get permission from the War Production Board for construction. This permission (sometimes called "authorization to begin construction") must not be confused with preference ratings or priorities. If a construction job is allowed, either because it is not of the kind restricted by this order or because permission has been obtained, it may still be necessary to get preference ratings for the materials and fixtures which are needed. On the other hand, if you have ratings for materials, or materials on hand, you may still have to get permission to use them for a particular construction job.

(b) What is meant by construction. Construction covered by this order includes putting up or altering any sort of a structure, including a building, road, bridge, dam, sewer, and similar jobs; also the installing of equipment or fixtures. Certain special kinds of construction are excepted, as explained in paragraphs (c) and (d) below.

(c) How much construction is allowed without getting permission. You need not get permission under this order for construction which does not total more than the limits shown in the following

list for all jobs begun in the same year. For an explanation of how to figure "cost," see paragraph (i). If a utility connection will be required (electricity, gas, water, steam or telephone), it may be necessary to get War Production Board approval for the connection. If so, approval for the connection must be obtained *before* beginning construction, even if the cost of construction comes within the limits. The limits for all jobs begun in the same year are as follows:

(1) \$200 for a house, including the entire residential property.

(2) \$1000 for a farm, including the farm house; a farm means a place used for raising crops, livestock, dairy products, poultry, etc., primarily for the market.

(3) \$1000 for a hotel, apartment building or other residence for six or more families. Any residence for five or less families is considered a house under (1) above.

(4) \$200 for an office, bank, store, laundry, garage, restaurant, or other retail service establishment, except that the limit is \$1000 for a unit containing more than five establishments of this kind.

(5) \$1,000 for a church, hospital, school, college, public playground for children, or for a publicly owned building or group of buildings used for public purposes.

(6) \$1,000 for a bridge, overpass, underpass, tunnel, dock, pier, bus terminal or for a railroad or street railway building or group of buildings.

(7) \$1,000 for an irrigation or drainage system serving more than one farm.

(8) \$1,000 for a building or group of buildings which will be used for warehouse or for off-farm storage purposes.

(9) \$1,000 for all monuments and structures on the same cemetery lot or for all cemetery buildings or structures in the same cemetery.

(10) \$1,000 for a military exchange situated on a reservation of the Army or Navy.

(11) \$1,000 for a building or group of buildings which will be used directly in furnishing any of the electric, gas, water or heating utility services listed in paragraph (a) (1) of Order U-1, and which will be owned by a utility producer as defined in that paragraph, or which will be used directly in furnishing communication services and which will be owned by an operator as defined in paragraph (a) (1) of Order U-2, or in paragraph (a) (1) of Order U-3, or which will be used directly for a sewage system and owned by a sewage system operator as defined in Order P-141.

(12) \$5,000 for a factory, plant or other industrial unit which is used for the manufacture, processing or assembling of any goods, except that the limit is \$200 if the goods are listed on Schedule A at the end of this order or if the productive floor area of the unit upon completion of construction is less than 10,000 square feet.

(13) \$200 for any other kind of construction.

(d) Special kinds of construction which do not require permission. It is not necessary to get War Production Board permission under this order for the following kinds of construction:

(1) Maintenance and repair; that is, work necessary to keep a building or structure in sound working condition or fix it when it has become unsafe or unfit for service because of wear and tear; also the minimum work necessary to

prevent more damage to a building or structure (or its contents) which has been damaged by fire, flood, tornado, earthquake, acts of war, or the like. Changes in material are permitted in doing maintenance and repair work. Additions, structural alterations, or the completion of unfinished parts of buildings are not considered maintenance and repair. Rebuilding or restoring after damage caused by fire, flood, tornado, earthquake, acts of war, or the like, is not permitted as maintenance and repair, but is permitted in some cases as explained below.

(2) The rebuilding or restoring of a house (including a farm house) or other residential building damaged or destroyed after July 1, 1943, by fire, flood, tornado, earthquake, acts of war, or the like, if the cost of rebuilding or restoring is less than \$5,000.

(3) The rebuilding or restoring of farm buildings damaged or destroyed by fire, flood, tornado, earthquake, acts of war, or the like, if the cost of rebuilding or restoring is less than \$5,000, where the immediate reconstruction is determined by the United States Department of Agriculture to be essential to the agricultural program.

(4) The rebuilding or restoring of a building or structure damaged or destroyed by disaster, where the Red Cross has been given priority assistance to restore the disaster area, and where the rebuilding or restoring has been determined by the Red Cross to be essential.

(5) Construction necessary to prevent threatened loss of farm products, where immediate construction is determined by the United States Department of Agriculture to be essential to the agricultural program.

(6) Construction owned by the United States Army, Navy, Maritime Commission, War Shipping Administration, Coast Guard, Marine Corps, Civil Aeronautics Authority, Coast and Geodetic Survey, or Panama Canal.

(7) Insulating buildings with materials such as storm windows and doors, pipe covering, loose fill, blanket or bat insulation, plain or granule surfaced rigid insulation, and weather stripping.

(8) Installing plumbing or heating equipment rated on WPB-2631 (PD-851), if the cost of installation (not including the cost of the equipment) is less than \$200.

(9) Grading, ditch-digging or similar earth-moving operations, if no cement, lumber or other building materials are used, except clay tile and non-reinforced concrete pipe.

(10) Various kinds of construction connected with the operations of farms, railroads, utilities, mines, the petroleum industry, logging camps, chemical plants, steel mills and broadcasting facilities as listed in Schedule B.

(11) A construction job which began before this order originally became effective (April 9, 1942), or at a time when the job was not limited by this order, and has gone on without interruption.

(12) Construction jobs which are classed as minor capital additions under CMP Regulation No. 5 or under CMP Regulation No. 5A. This exception applies only to:

(i) Additions to factories, plants and other industrial units which will have a productive floor area of 10,000 square feet or more, and which are for the manufacturing, processing or assembling of goods which are not listed in Schedule A.

(ii) Hospitals.

(e) *All other construction forbidden without WPB permission.* No person shall do any construction which has not been permitted by the War Production Board, unless it is of a kind described in paragraph (c) or (d) above. This prohibition applies to a person who does his own construction work, to one who gets a contractor to do it for him, and to any contractor or subcontractor who works on the job or gets others to work on it. It also applies to any supplier who furnishes material for the job if he knows or has reason to know that the construction has not been permitted.

(f) *How to apply for permission.* (1) Schedule C at the end of this order shows the various types of application forms, and where they should be filed.

(2) In case of emergency, application may be made by wire or in person instead of on a printed form. It must be made to the office in which a written application for the same construction should be filed. The following information must be given:

(i) Cause of the emergency (fire, flood, etc.).

(ii) What the building or structure is used for.

(iii) Type of construction.

(iv) Why immediate construction is necessary.

(v) Estimated cost of construction.

(g) *Preference rating includes permission in some cases only.* There are some forms of preference rating orders and certificates which are issued or have been issued for special kinds of construction and which include permission for construction although they do not say so. These are listed in Schedule D at the end of this order. In all other cases, a preference rating is not enough, unless the instrument which assigns the rating also states that construction is permitted under this order.

(h) *Other restrictions on use of some items.* Permission for construction or the exception of any construction from this order does not relieve any one from complying with the various WPB orders or directives which restrict the use of copper and other scarce materials or fixtures. If you do not know about these restrictions, consult the nearest War Production Board District Office.

(i) *How to figure cost.* (1) For the purpose of determining whether a construction job may be started without getting permission from the War Production Board, "cost" means the cost of the whole construction job as estimated at

the time of beginning construction, except that the cost of used material or used fixtures may be disregarded.

(2) If any materials or fixtures which have not been used are obtained without buying them, their value must be included as part of the cost.

(3) The cost of processing machinery or equipment need not be included but the cost of installing it and the cost of plumbing, heating, and air conditioning equipment and of all other equipment not used directly in the processing of materials must be included.

(4) The cost of labor must be included, but if labor is unpaid its value need not be included. Contractors' fees also must be included but architects' and engineers' fees need not be.

(5) All construction on the same unit must be included. The word "unit" means any group of buildings or structures (including roadways, pipelines, etc.) which are situated near to each other, and which serve the same general purpose, or closely related purposes. For example, each of the following is a unit: a house, together with a detached garage, tennis court, swimming pool, etc.; a farm, including the farm house, barn, hen house, dairy, etc.; a manufacturing plant with a number of buildings used for the same or different processes, together with administration buildings, cafeterias, etc. In no case may a single building or structure be treated as more than one unit.

(6) The cost per year must be determined on a calendar year basis, beginning with January 1, 1943, except that a company which regularly keeps its books on a fiscal year basis may use the fiscal year.

(j) *Penalties for violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any Department or Agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining any further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 1st day of November 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT¹

[General Conservation Order L-250, as Amended Nov. 1, 1943]

ELECTRIC MOTOR CONTROLLERS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials and facilities used in the manufacture of electric motor controllers for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1226.97¹ *General Conservation Order L-250—(a) Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Manufacturer" means any enterprise to the extent that it is engaged in the business of manufacturing con-

¹ Formerly Part 3173, § 3173.1.

PART 1075—CONSTRUCTION

[Supplementary Conservation Order L-41-b, Revocation]

Section 1075.3 *Supplementary Conservation Order L-41-b*, as amended December 21, 1942, is hereby revoked because there is no longer need for paragraph (a) of this order, and because construction permitted by paragraph (b) of this order

trollers, and includes sales and distribution outlets and warehouses controlled by any such person.

(3) "Manufacture" means the production, fabrication or assembly of any controller, or of any part thereof.

(4) "Controller" means any new device or equipment used to stop, start or regulate electric motors or to protect electric motors against overheating or overloading; including manual and magnetic starters and controllers, contactors and relays, speed regulators, drum switches, shunt or series coil type thermal or magnetic overload relays (except switch gear induction type relays), motor field rheostats, and solenoid, thruster and torque motor brakes; and related pilot devices such as push button stations, and limit, pressure and float switches. The term does not include wiring devices or snap switches rated 15 amperes or less; safety switches; fuses; air circuit breakers; oil circuit breakers; domestic type thermostats, refrigeration controls or furnace controls; or any replacement part for a passenger automobile, truck, truck trailer, passenger carrier, motorized fire equipment, or off-the-highway motor vehicle, as defined in Limitation Order L-158, as amended.

(5) "Commercial" as applied to a size, type or rating of a product means any size, type or rating thereof heretofore normally produced by any producer as a standard item, for his inventory or for general distribution, and not in fulfillment of special orders.

(b) *Restrictions on orders.* No manufacturer shall accept any order, or commence manufacture in fulfillment of any order, for any controller or part thereof, unless the order bears a preference rating of AA-5 or higher. The restrictions of this paragraph shall not apply to any order for any controllers, or parts thereof, for use on elevators and manufactured by a person engaged primarily in the production of elevators.

(c) *Restrictions on manufacture.* (1) Except as otherwise provided herein, on and after March 1, 1943, no manufacturer shall accept any order, or commence manufacture in fulfillment of any order, for any controller or part thereof unless such controller or part is to be manufactured in accordance with the standards prescribed in subparagraph (2) below. On and after May 14, 1943, no manufacturer shall deliver any controller or part thereof, unless it has been manufactured in accordance with such standards. The limitations of this subparagraph shall not apply to any order for, or delivery of any controller or part which was completely fabricated on or before February 13, 1943.

(2) Subject to the other provisions of this paragraph, all controllers and parts thereof shall be manufactured in compliance with the following requirements and shall be otherwise of the simplest practicable design:

(i) All control circuit wiring shall follow a straight line between terminals except where, and to the extent that deviation therefrom is necessary to avoid electrical or mechanical interference.

(ii) Control circuit wiring carrying 15 amperes or less shall have no greater copper content than size No. 14 AWG wire; except when and to the extent that a larger copper content is required to avoid abnormal voltage drop or heating.

(iii) All buses, connecting straps and terminals, except for oil immersed controllers, shall be of the smallest commercial size copper necessary to prevent the bus, strap or terminal from exceeding a temperature rise of 50° over 40° C. ambient temperature when carrying the full load current of the motor with which the controller will be used.

(iv) No control circuit wiring insulation between terminals on a controller shall be of more than one color for each voltage.

(v) No controller of a type listed in Appendix A, for a single motor, shall include a contactor having an ampere rating in excess of the maximum rating prescribed in the appendix for such controller; except where operation of a general purpose controller, as covered by Table No. 1 or Table No. 4 of Appendix A requires repeated opening of stalled motor current (such as plug-stop or jogging (inching) duty) at a rate in excess of 5 per minute.

(vi) No general purpose controller, for a single motor, of the type listed below rated 600 volts or less shall include control circuit fuses or a control circuit disconnect switch:

(a) Alternating current magnetic across the line type starters;

(b) Alternating current magnetic reduced voltage autotransformer, reactor, impedance, or primary resistance type starters;

(c) Alternating current combination across the line starters and thermal or magnetic circuit breakers;

(d) Alternating current combination across the line starters and motor circuit switches.

(e) Direct current reduced voltage controllers.

(f) Direct current, reduced voltage controllers with motor circuit switches or thermal or magnetic circuit breakers.

(vii) No general purpose controller, for a single motor, of the types listed below rated 600 volts or less shall include a control transformer unless master switches or pilot devices of the necessary rating are not obtainable as a commercial product:

(a) Alternating current magnetic across the line type starters;

(b) Alternating current magnetic reduced voltage autotransformer, reactor, impedance, or primary resistance type starters;

(c) Alternating current combination across the line starters and thermal or magnetic circuit breakers;

(d) Alternating current combination across the line starters and motor circuit switches.

(viii) No alternating current controller of the reduced voltage autotransformer, reactor, impedance, or primary resistance type shall be provided for a polyphase induction motor of 20 horsepower or less, rated 600 volts or less, ex-

cept that the limitations of this paragraph shall not apply to a controller for an elevator, hoist or crane.

(ix) No controller or control equipment of the types listed below, rated 600 volts or less, shall be provided with a floor mounting type steel enclosing case or a floor mounting type steel cabinet:

(a) Magnetic controller for main mill or auxiliary motors, for a metal rolling mill (mill duty controllers);

(b) Magnetic controllers for cab operated cranes;

(c) Protective panels for cranes;

(d) Magnetic or manual controllers for fire pumps;

(e) Magnetic controllers for elevators;

(f) Magnetic controllers for skip hoists;

(g) Magnetic, manual, or combination magnetic and manual controller for a single synchronous motor;

(h) Magnetic controllers of the across-the-line or reduced voltage type for a single motor;

(i) Resistor banks for secondary or armature control, mounted separately from the controller; except where forced draft or air circulation is required to meet the temperature limitation.

The limitations of this subparagraph

(c) (2) (ix) shall not apply to any controller or control equipment used below the level of the ground in a mine or quarry; or to any controller to be used in a Class 1 hazardous location as defined in paragraph 5005, article 500, chapter 5 of the National Electrical Code, approved by the American Standards Association, August 7, 1940, or in a Class 2 hazardous location as defined in paragraph 5006, article 500 of the above mentioned code; or to be used generally in an atmosphere which is corrosive, or which contains such quantities of metal particles, dust or fumes as to be destructive of an open type controller; nor shall such limitations apply in any case where the controller is to be installed permanently outdoors without other protection.

(x) No controller shall be supplied with built in test jacks or test receptacles.

(xi) No alternating current motor controller of less than 1,000 horsepower, and no direct current motor controller of 50 horsepower or less, shall include instruments, meters, potential transformers, or current transformers or shunts to be used for metering, mounted on the controller panel or enclosure; but this restriction shall not apply to controllers used to regulate a series of direct current motors driving a common load, nor to alternating current line ammeter and direct current field ammeter to be installed on synchronous motor controllers, nor to ampere hour meters to be installed on industrial truck or locomotive control panels.

(xii) No aluminum, copper, chromium, nickel, cadmium, or alloys or finishes thereof shall be used in the manufacture of enclosing cases, name plates, identification plates or door handles for controllers.

(xiii) No stainless steel shall be used in the manufacture of any controller or

part; except for resistance wire or ribbon or where necessary to provide non-magnetic properties required for operation or to prevent sticking or binding of moving parts.

(3) The limitations of paragraph (c) shall not apply to any controller delivered for use aboard any ship owned or operated by the Army, Navy, Maritime Commission or War Shipping Administration.

(d) *Miscellaneous provisions—*

(1) *Records and reports.* All persons affected by this order shall keep and preserve, for not less than two years, accurate and complete records concerning inventories, production and sales. All such persons shall execute and file with the War Production Board, such reports and questionnaires as the Board shall request from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Appeals.* Any appeal from the provisions of this order may be filed by either the manufacturer or the purchaser or proposed purchaser. Any such appeal shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal. On appeals from the provisions of paragraph (c) (2) (viii), the letter shall include the following data:

(i) Horsepower, voltage, frequency and phase of the motor to be controlled;

(ii) The kva rating of the transformer bank supplying the motor;

(iii) The maximum load on the transformer bank, exclusive of the motor to be controlled;

(4) *Communications.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to War Production Board, General Industrial Equipment Division, Washington 25, D. C.; Ref.: L-250.

Issued this 1st day of November 1943.

INTERPRETATION 1

Paragraph (c) (2) (ix) prohibits the use of floor mounting type steel enclosing cases or steel cabinets for various kinds of controllers, with certain exceptions. These exceptions include cases for use in an atmosphere which is corrosive or which contains metal particles, dust, or fumes, or for use out-of-doors without other protection.

A question has arisen as to whether Type I (general purpose) and Type IA (semi-dust tight) enclosing cases are included within the above mentioned exception. Since Types I and IA cases are not suitable for protection against conditions of the kind which form the basis for the above mentioned exemptions, such equipment is not deemed to be within the exception regardless of the use to which the purchaser alleges he wishes to put the equipment. (Issued June 8, 1943.)

INTERPRETATION 2

Subparagraph (c) (3) of § 1226.97 (General Conservation Order L-250) provides that the limitations of paragraph (c) shall not apply to any controller delivered for use aboard any ship owned or operated by the Army, Navy, Maritime Commission or War Shipping Administration. A question has been raised as to the proper classification of floating dry docks. It was contemplated that floating dry docks produced for service anywhere would be considered ships within the meaning of the paragraph. (Issued June 15, 1943.)

PART 1226—GENERAL INDUSTRIAL EQUIPMENT¹

[INTERPRETATION 3 TO GENERAL CONSERVATION ORDER L-250]

ELECTRIC MOTOR CONTROLLERS

The following interpretation is issued with respect to General Conservation Order L-250:

The question has been raised as to whether the word "controller", as defined in paragraph (a) (4), includes a controller which is incorporated into a larger assembly, as a component part of the assembly.

The word "controller", as thus used, includes any controller (except those which are specifically excluded in the definition), regardless of whether it is assembled with other apparatus, or mounted individually.

PART 1255—INVENTORY RESTRICTION EXCEPTIONS²

[General Inventory Order M-161 as Amended Nov. 1, 1943]

Section 1255.1² (General Inventory Order M-161) is amended to remove the following materials from Schedule A:

Borax (hydrated and dehydrated)

Boric acid

§ 1255.1² General Inventory Order M-161—(a) *What this order does.* This order excepts certain materials from inventory restrictions and from limits on the purchase of maintenance, repair, and operating supplies. The exception is made in some cases because there is no serious shortage of the material and in other cases because the material is available in quantity only in certain seasons, so that it is desirable to permit persons to buy and store it without limit.

(b) *Exception to inventory restrictions.* Section 944.14 of Priorities Regulation 1, which restricts inventory to a practicable working minimum, does not apply to the materials listed on Schedule A. Each of these materials is also exempted from all inventory restrictions in any other regulation or order of the War Production Board unless they expressly mention the material.

(c) *Exemption from restrictions on maintenance, repair, and operating supplies.* The materials listed on Schedule A are not subject to any restrictions in any regulation or order of the War Production Board which limit the quantity of material received or ordered for maintenance, repair, or operating supplies during any period on the basis of the amount of such supplies purchased during a base period. A person may receive or order for delivery any quantity of listed materials without regard to these restrictions. He does not have to charge his orders for any such material against his base-period quota except to the ex-

tent that purchases of the same material were taken into account in arriving at his quota. For example, a manufacturer operating under CMP Regulation 5 is limited in his purchases of maintenance, repair, and operating supplies to the amount which he spent in the base period. A manufacturer who spent \$50,000 during the base period, including \$500 for lead, may buy any amount of lead during the current period, and may use his MRO rating for that purpose, and he need include only \$500 of the amount thus spent for lead in figuring the amount to be charged to his quota of MRO.

PART 3270—CONTAINERS

[Supplementary Order L-103-b as Amended Nov. 1, 1943]

GLASS CONTAINER QUOTAS

§ 3270.36 Supplementary Order L-103-b—(a) *Definitions.* For the purposes of this supplementary order:

(1) "Glass container" means any machine made bottle, jar or tumbler of less than two gallon capacity which is made of glass and which is suitable for packing any product.

(2) "Commercial user" means any person who uses glass containers for commercially packing any class of listed products in the continental United States (the 48 States and the District of Columbia).

(3) "Class of listed products" means any class of products listed in Schedule I of this order. Food and drug products listed in Schedules I and II of Order M-104 and shortening are not included in Schedule I of this Order, and therefore glass containers for such products are not subject to the restrictions of this order.

(4) "Quota period" means the 6-month period from July 1 through December 31, 1943, inclusive. This is the period during which the restrictions below will operate.

(5) "Base period" means, unless otherwise specified in Schedule I of this order, whichever of the following two periods a commercial user chooses: Base Period A (July 1—December 31, 1942, inclusive), Base Period B (January 1—December 31, 1942, inclusive). The number of empty new glass containers and metal cans accepted during the base period will be used in computing quotas under the restrictions below.

Quota and Related Restrictions

(b) *Quota restriction.* During the quota period (July 1—December 31, 1943), no commercial user shall accept delivery of, have manufactured, or have set aside by suppliers for his account, more empty new glass containers of less than two gallon capacity for packing any class of listed products than his quota for that purpose. The amount of the quota shall be computed by applying the appropriate quota percentage (as specified in Schedule I for that class) to the amount of his base quantity. The amount of the base quantity shall be computed in accordance with paragraphs (c) or (d) below:

(c) *Computing base quantity (except for beverages).* A commercial user's base quantity for any class of listed products other than beverages (as defined in Schedule I of this order) shall be whichever of the following two amounts he chooses (glass containers of two gallon capacity or larger shall not be included):

(1) *Choice #1.* The number of new glass containers and metal cans accepted by him during Base Period A (July 1—December 31, 1942, unless otherwise specified in Schedule I of this order), for packing that class of products; or

(2) *Choice #2.* One-half of the number of new glass containers and metal cans accepted by him during Base Period B (January 1—December 31, 1942, unless otherwise specified in Schedule I of this order), for packing that class of products.

(d) *Computing base quantity for beverages.* A commercial user's base quantity for beverages (as defined in Schedule I of this order) shall be whichever of the following two amounts he chooses (glass containers of two gallon capacity or larger shall not be included):

(1) *Choice #1.* The number of new returnable glass containers accepted by him during Base Period A (July 1—December 31, 1942) for bottling beverages plus 8% of the number of new non-returnable glass containers and metal cans accepted by him during that period for bottling beverages; or

(2) *Choice #2.* One-half of the number of new returnable glass containers accepted by him during Base Period B (January 1—December 31, 1942) for bottling beverages plus 8% of one-half of the number of new non-returnable glass containers and metal cans accepted by him during that period for bottling beverages.

(e) *"Borrowing" for purposes of 1944 usage.* In addition to his quota for any

¹ Formerly Part 3173, § 3173.1.

² Formerly Part 3286, § 3286.76.

product class, a commercial user may "borrow" against his anticipated 1944 usage of glass containers for that product class by accepting, having manufactured, or having set-aside for him during the month of December, 1943, up to the amount of one-sixth of his entire quota for that product class. However, any glass containers accepted during December 1943 on this "borrowing" basis shall not be used by him before January 1, 1944. In addition, the amounts so accepted shall be charged to any quota which may be imposed upon the product class involved for the year 1944 or any part thereof.

Restrictions on Using Larger Sizes

(f) *Maximum capacity increase.* The total capacity of all empty new glass containers accepted by any commercial user during the quota period for packing any class of listed products shall not exceed the following maximum: (1) 140% of the total capacity of the number of empty new glass containers and metal cans accepted by him for that class of listed product during Base Period A or, if he has chosen Base Period B for computing his quota, (2) 140% of the total capacity of one-half of the number of empty new glass containers and metal cans accepted by him for that class of listed product during Base Period B. Capacity shall be computed in terms of gallons or pounds, whichever is the customary measure for the particular class of products.

(g) *Restriction on ½-gal. and 1-gal. sizes.* No commercial user shall accept delivery of more ½-gallon and 1-gallon empty new glass containers for packing any class of listed products than the following maximum: (1) the total number of all ½-gallon and 1-gallon empty new glass containers and metal cans accepted by him for that class of listed product during Base Period A or, if he has chosen Base Period B for computing his quota, (2) one-half of the total of all ½-gallon and 1-gallon empty new glass containers and metal cans accepted by him for that class of listed product during Base Period B. The amount of ½-gallon and 1-gallon glass containers which he may accept is subject to the other restrictions of this order, including those of paragraph (f) above.

Manufacture, Sale and Delivery

(h) *Restrictions on manufacture, sale and delivery.* No person shall sell or deliver any empty new glass containers to any commercial user who has not filed with him a purchaser's certificate manually signed by the purchaser or an authorized official of the purchaser, in substantially the form attached hereto as Exhibit A. No person shall manufacture, sell, deliver or set-aside any glass con-

tainers to or for any commercial user which he knows or has reason to believe the user cannot accept or have manufactured or set-aside in conformity with the terms of this order.

Exceptions

(i) *Small-user exception.* The restrictions of this order shall not apply to any commercial user who accepts no more than a total of \$1,500 worth (cost price to him) of empty new glass containers for all classes of listed products for the entire quota period.

(j) *Exception for stocks in transit.* The restrictions of this order shall not apply to any empty new glass containers placed in transit to a commercial user before July 1, 1943, even though received by him on or after July 1, 1943. This exception shall not apply to any empty new glass containers set aside for a commercial user before July 1, 1943 by a supplier but not placed in transit to him until on or after that date.

(k) *Assignment of special quota (malt beverages).* A special quota may be assigned by the War Production Board to any malt beverage bottler if the new containers accepted by him during his base period were principally non-returnable bottles, and if the quota computed on the resulting base quantity is inadequate for his operations at a rate consistent with the reductions generally contemplated by the quota restrictions of this order.

If such a special quota was assigned prior to October 31, 1943, under any previous version of this order (for a four-month quota period), it shall automatically be increased by one-half for the six-month quota period established by this order.

(l) *Multiple-unit users.* Any commercial user who uses glass containers at more than one plant may choose to compute and apply a separate quota for each plant (or groups of plants) or a collective quota for all such plants. Any organization which consists of a parent corporation and one or more wholly-owned subsidiary corporations may consider itself as a single commercial user for purposes of this paragraph.

Quota-Exemptions

(m) *Quota-exemptions (except for beverages).* In addition to his quota of glass containers for any class of listed products (other than beverages as defined in Schedule I) and free of the restrictions of paragraph (f) above, any commercial user may accept delivery of the number of glass containers used, or actually to be used, during the quota period for delivering that class of listed products to or for any of the following persons:

(1) Army, Navy, Marine Corps, Maritime Commission, or War Shipping Administration of the United States (including persons operating vessels for

such Administration or Commission for use thereon).

(2) Any person for packing products for retail sale or distribution through post-exchanges, sales commissaries, officers' messes, servicemen's clubs, ship service stores, or outlets; provided same are located at Army or Navy camps, are not operated for private profit and are established primarily for the use of Army or Navy enlisted personnel within Army or Navy establishments or on Army or Navy vessels.

(3) American Red Cross, United Service Organizations, or such other non-profit Defense Recreation Committees, engaged in the operation of recreation centers in the forty-eight states of the United States or the District of Columbia solely for military personnel, as are certified to be within the exemption provided by this paragraph by the Office of Defense Health and Welfare Services, OEM.

(4) Any agency of the United States purchasing for a foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(n) *Quota-exemptions for beverages.* In addition to his quota of glass containers for beverages (as defined in Schedule I) and free of the restrictions of paragraph (f) above, any commercial user may accept delivery of the following portion of the number of new or used glass containers used, or actually to be used, during the quota period for delivering beverages to or for any of the persons listed under paragraph (m) above:

(1) *Export shipment.* The full amount of glass containers for delivering beverages to or for any such person for shipment to points outside the continental United States.

(2) *Domestic consumption.* 8% of the full amount of glass containers for delivering beverages to or for any such person for use or distribution within the continental United States.

Miscellaneous Provisions

(o) *Restriction on changing choices.* After choosing his base period and the method of computing quotas for multiple-unit organizations, no commercial user shall thereafter change his choice, unless authorized by the War Production Board.

(p) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter, referring to the particular provision appealed from and stating fully the grounds for the appeal.

(q) *Communications.* All communications concerning this order shall be addressed to: War Production Board, Containers Division, Washington 25, D. C., Ref.: L-103-b.

(s) *Expiration.* This order shall expire at the close of business December 31, 1943, unless previously revoked or extended.

Issued 1st day of November 1943.

INTERPRETATION 1

Paragraph (b) of Order L-103-b (§ 3270.36) prohibits commercial users from accepting delivery, having manufactured, or having set aside by their suppliers for their account more than their quota of empty new glass containers for packing any class of listed products. This does not mean that a commercial user has one quota for acceptances, a second quota for amounts which he may have manufactured, and a third quota for amounts which he may have set aside. It means that the amounts he accepts, and the amounts he has manufactured, and the amounts he has set aside are all chargeable to the same quota. (Issued Aug. 24, 1943)

[Supplementary Utilities Order U-1-h]

§ 4500.9 *Supplementary Utilities Order U-1-h—(a) Permission to build certain extensions.* Notwithstanding the provisions of paragraph (h) (1) of Utilities Order U-1, extensions of electric, gas, water, and central steam heat facilities may be made or connected by a producer, subject to the restrictions of paragraph (b) below, to serve the following types of consumer premises:

(1) Premises which are being built or remodeled under authority of a specific authorization issued pursuant to Conservation Order L-41,

(2) Premises which will be occupied exclusively by the Army, Navy, Maritime Commission, War Shipping Administration or Civil Aeronautics Authority.

(3) Premises of an industrial or commercial consumer.

(i) In cases where the extension or enlargement of utilities facilities is necessary for the production of one of the products or the supply of one of the services listed in Schedules I and II of CMP Regulation 5 or

(ii) In cases where the consumer is an electric, gas, water, steam heat, telephone or telegraph utility; a person engaged in the business of producing, refining or marketing (except retail) natural gas or petroleum products; or a person engaged in the business of mining or burning refractories to whom a

serial number has been assigned under Preference Rating Order P-56.

(b) *Restrictions on construction.* Extensions of the type permitted by paragraph (a) of this order may be built only if all of the following conditions are satisfied:

(1) The cost of material for any such utility extension does not exceed \$5,000 but exceeds \$1500 in the case of underground construction, or \$500 in the case of other construction. No job or project may be subdivided to come within these limits.

(2) The extension does not duplicate an adequate service already installed or constitute a stand-by service.

(3) No other producer can render the same service with lesser amounts of critical material.

(4) In the case of extensions to buildings which are to be used exclusively for dwelling purposes the extension (including service drop or service pipe and any portion built by or for the consumer) can be built within the limits established by the Housing Utilities Standards issued by the War Production Board.

(5) In the case of extensions to premises which are to be built or remodeled under authority of a specific authorization applied for pursuant to Conservation Order L-41, the producer has completed Form WPB-3348, and delivered it to the builder for attachment to the builder's application for L-41 approval.

(c) *Assignment of preference rating and CMP allotment number.* (1) The preference rating AA-3 is hereby assigned to orders for material other than controlled material, and the abbreviated CMP allotment number U-9 is hereby assigned to orders for controlled material, to be placed by a producer for use in the construction of extensions of facilities authorized by this supplementary order or to replace in inventory material so used.

(2) The preference rating and allotment number assigned above may be applied by a producer by using the certification provided in CMP Regulation 7.

(3) An order for controlled material bearing the CMP allotment number U-9 shall be deemed an authorized controlled materials order. This allotment number shall constitute an "allotment number or symbol" for the purpose of CMP Regulation 3.

(d) *Acquisition of material.* The acquisition of material for extensions of facilities authorized by this supplementary order is subject to the following restrictions:

(1) It may be ordered only to the extent that it is not available in the producer's inventory in excess of a practical working minimum.

(2) If taken from such excess inventory it may not be replaced.

(3) If taken from practical working minimum inventory it may be replaced therein, but only with the preference rating or allotment symbol assigned in paragraph (c) of this supplementary order.

(4) It may not be ordered until either

(i) The producer has been advised that the builder of the structure to be served has received L-41 approval, or

(ii) The producer has been advised by such builder that L-41 approval is not required and has received a written request from such builder to supply the utility service.

(5) Without regard to accounting practices, "operator's inventory" means the aggregate of material currently owned by an operator and not incorporated into plant or in the process of being consumed, exclusive of:

(i) Material listed for sale on Form WPB-2587 (UF-6), and filed with the Communications Division, Office of War Utilities. Records of withdrawals from and additions to material listed for sale shall be maintained and preserved for a period of not less than two years under the authority of paragraph (i) and shall be reported to the Communications Division upon the request of the War Production Board.

(ii) Material for use on a project approved by the War Production Board.

(iii) [Revoked Oct. 30, 1943]

(iv) Material set aside to restore plant damaged by enemy action or sabotage provided the operator has received War Production Board approval on Form WPB-2774 or other appropriate form. Withdrawals must be reported to the War Production Board.

(v) Lead covered cable or bare line wire maintained by an operator for the repair of major breakdowns due to storms, floods, etc., reported as prescribed on Form WPB-1127 (UF-5), unless disapproved by the War Production Board.

(vi) Poles, crossarms, insulators and non-metallic conduit, furniture and fixtures; office machinery; printing, stationery and office supplies; house service supplies; and coal and petroleum products.

(b) Rating and CMP allotment number. (1) An operator is authorized to use the allotment number U-9 and preference rating of AA-1 for deliveries of material for maintenance, repair and operating supplies.

(2) An operator may apply and a supplier may extend the rating or allotment number in the manner provided in Priorities Regulation 3 and CMP Regulation 3, by placing on his delivery order substan-

tially the certification set forth below in paragraph (b) (3).

(3) Utilities maintenance, repair and operating supplies certification.

Allotment number U-9, preference rating AA-1. The undersigned operator certifies, subject to the penalties of section 35A of the United States Criminal Code, to the seller and to the War Production Board, that, to the best of his knowledge and belief, the undersigned is authorized under applicable War Production Board regulations or orders, and under all provisions of Utilities Orders U-2, U-3, and U-6, to place this delivery order, to receive the item(s) ordered for the purpose for which ordered and to use any preference rating or allotment number which the undersigned has placed on this order.

(c) Restrictions on use of material.

(1) Material obtained under this order may be used by an operator only within the limitations of Orders U-2 and U-6.

(2) Material obtained under this order may be used for operating supplies only in the following cases:

(i) An amount costing not more than fifty dollars may be used on any project specifically approved by the War Production Board on Form WPB-2774 or any alternative form.

(ii) It may be used for toll line plant in any single case in which the total material cost does not exceed \$500.

(iii) It may be used for telegraph and teletypewriter facilities in any single case in which the total material cost does not exceed \$2,500.

(iv) An amount costing not more than \$2,500 may be used for other purposes in any single case in which the total cost of all material used does not exceed \$5,000.

(3) An operator whose "operator's inventory" at the end of 1942 or whose use of material during 1942 did not exceed \$10,000 may not, in any single case, use material obtained under this order costing more than \$500 for operating supplies.

(4) No operator shall subdivide a single order job, or project to qualify it under the dollar limitations of this paragraph.

(5) Material obtained under this order may be used for maintenance and repair without regard to dollar limitations on the use of material for operating supplies.

(6) The dollar limits of this paragraph (c) shall not prevent the use of material on hand to meet temporary traffic or emergency requirements, but where the dollar limits are exceeded the material must be returned to inventory or to its original location in plant within thirty days, unless application has been made to the War Production Board for authority to continue the use of material.

(7) No material may be used for building construction except as permitted by Order L-41. However, an operator may effect maintenance and repair of build-

ings which are essential to the conduct of the operator's business.

(8) A P. B. X. switchboard obtained under this order may be installed initially only for Schedule A service as set forth in Order U-2, or for essential public pay station service.

(d) *Authority to begin construction.* For any addition or expansion of telephone, telegraph or teletypewriter facilities involving a total material cost which exceeds the dollar limitations of paragraph (c) (2) or (c) (3) above, or which involves a total cost in material in excess of \$5,000, an operator must obtain authority to begin construction and necessary priority assistance on Form WPB-2774.

(e) *Restrictions on inventory.* (1) No operator shall accept deliveries of material unless after the delivery his operator's inventory will not exceed a practical working minimum. A practical working minimum shall in no case be greater than 27½% of the dollar value of material used during the calendar year 1940 for all purposes exclusive of the items in paragraph (a) (5) (vi) and materials which were used for building construction. The items in (a) (5) (vi) may be accepted by an operator even if his operator's inventory exceeds 27½% of his 1940 usage of material.

(2) No operator shall accept delivery of a size, type, gauge and length of cable, wire or strand, if the operator's inventory of that size, type, gauge and length is in excess of requirements for the next sixty days. However, if an operator needs some wire, cable or strand, this provision does not forbid purchase of the minimum standard reel-length, even though the operator does not expect to use the whole reel in the next sixty days.

(f) *Restrictions on purchases.* (1) No operator shall use the allotment number or preference rating assigned by this order to obtain material during any calendar quarter in an aggregate dollar amount exceeding one-fourth of his aggregate dollar usage in 1942 for maintenance, repair and operating supplies.

(2) But, so long as the 1942 base as set forth in paragraph (f) (1) is not exceeded during a calendar year, an operator may in any quarter obtain the dollar quantity used in the corresponding quarter of 1942.

(g) *Exemptions.* (1) Any operator whose operator's inventory did not exceed \$10,000 at the end of 1942 is exempt from the inventory restriction of paragraph (e) (1).

(2) Any operator whose use of material during the year 1942 did not exceed \$10,000 shall be exempt from the provisions of paragraph (f) (1) above.

(h) *Sales of material.* Material which is "industrial material" as defined in Priorities Regulation 13 and is listed for sale under (a) (5) (i) or is reserved for emergencies under (a) (5) (iv) and (a) (5) (v), must when sold between operators be sold without a preference rating or allotment number. However,

the material in (a) (5) (iv) and (a) (5) (v) so sold must be used for the purposes for which it was originally reserved.

(i) *Records and reports.* Each operator acquiring maintenance, repair or operating supplies pursuant to this regulation shall keep and preserve, for a period of not less than two years, accurate and complete records of all such supplies so acquired which shall, upon request be submitted to audit and inspection by duly authorized representatives of the War Production Board. In addition, each operator affected by this order shall file such reports with the Communications Division, Office of War Utilities, as may from time to time be required by the War Production Board.

(j) *Applicability of regulations.* (1) This order and all transactions affected by it, except as expressly provided, are subject to all applicable regulations of the War Production Board, as amended from time to time.

(2) None of the provisions of CMP Regulations No. 5 or 5A shall apply to operators as defined in paragraph (a) (1) of this order, and no such operator shall obtain any material under the provisions of these regulations.

(k) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control, and may be deprived of priorities assistance.

(l) *Communications.* All reports to be filed, appeals and other communications concerning this order should be addressed to: Communications Division, Office of War Utilities, War Production Board, Washington 25, D. C. Ref.: U-3.

(f) "Paperboard" means all kinds, grades, types, calipers, colors, and patterns of paperboard, and is further defined as follows:

(1) All grades of paperboard covered by Appendix A:

(i) Shall have weight, thickness and density specifications prescribed in Boxboard Thicknesses (R-44-36). U. S. Department of Commerce Simplified Practice Recommendations.

(ii) Which are full bending boards shall sustain a 180° fold when properly scored and folded across the grain, with no break in the outer surface fibres, except that semi-bending boards are those which sustain a 90° fold under the same conditions.

(iii) Which are vat lined boards shall have a liner of uniform formation and of sufficient thickness to prevent any show-through of the filler.

(iv) Shall have a moisture content not exceeding 8 1/2% of invoiced weight.

(v) Which are vat lined boards shall be made on a cylinder paper machine or a multiple head box Fourdrinier machine with the lined side of different compositions than the balance of the sheet.

(2) "Plain chip" is a paperboard which is composed of mixed papers and is characterized by a gray to a natural brown color.

(3) "News vat lined chip" is a vat lined paperboard which has one side lined with 100% printed news wastepaper, with the remainder of the sheet composed of mixed papers; the lined side of a characteristic gray color, is cleaner than plain chip.

(4) "Filled news" is a vat lined paperboard which has both sides lined with 100% printed news wastepaper with the remainder of the sheet composed of mixed papers; and has both liners, of a characteristic gray color, which are cleaner than plain chip.

(5) "Solid news" is a paperboard which is a homogeneous grade composed of a minimum of 70% printed news wastepaper and has a characteristic clean gray color.

(6) "White vat lined chip" is a vat lined paperboard which has a white or

natural cream colored top liner and has the balance of the sheet composed of mixed papers.

(7) "Mounting board" is a paperboard which is a quality of chipboard or newsboard with resistance to warping, and is a very closely formed smooth sheet with a uniform moisture content.

(8) "Chip tube and can stock" is a paperboard which is composed of mixed papers; is hard, uniform, and level in caliper across the sheet, and is of a quality that permits forming it into a spirally or convolutely wound cylinder of the desired diameter without checking, in excess of the amount of checking, generally acceptable to the purchaser during the year 1941.

(9) "Single manila lined chip" is a vat lined paperboard which is of full-bending quality on the top liner side. It has a uniform cream colored top liner with a surface suitable for printing in colors, and has the balance of the sheet composed of mixed papers.

(10) "Single jute lined chip" is a vat lined paperboard which is of full-bending quality on the top liner side. It has a uniform brown colored top liner with a smooth surface suitable for printing in colors, and has the balance of the sheet composed of mixed papers. This grade may not be sold in roll form, unless for use in other than the manufacture of corrugated and solid fibre shipping containers.

(11) "Mist gray lined chip" is a vat lined paperboard which is of full-bending quality on the top liner side. It has a top liner containing a uniform dispersal of black fibres to give the board a misty appearance, with a surface suitable for printing in colors, and has the balance of the sheet composed of mixed papers.

(12) "Bleached manila lined chip" is a vat lined paperboard which is of full-bending quality on the top liner side. It has a white top liner, with a surface suitable for printing in colors, and has the balance of the sheet composed of mixed papers.

(13) "Semi-bending and creasing chip" is a paperboard which is of semi-bending quality on one side. It is composed of mixed papers, and is characterized by a gray to a natural brown color.

(14) "Full bending chip" is a paperboard which is of full-bending quality on one side. It is composed of mixed papers and is characterized by a gray to a natural brown color.

(15) "#1 single white patent coated news" is a vat lined paperboard of full-bending quality on the top liner side. It has a white top liner, with an extra smooth surface adapted for high grade color printing. It has a top liner composed of 85% or more chemical fibre either in virgin pulp form or in wastepapers directly substituting therefore, with the balance of the sheet homogeneous in character and composed of a minimum of 60% printed news wastepaper.

(16) "#1 double white patent coated news" is a vat lined paperboard which is of full-bending quality on both the top and bottom liner sides. It has white top and bottom liners with extra smooth

surfaces adapted for high grade color printing. It has a top and a bottom liner composed of 85% or more chemical fibre either in virgin pulp form or in wastepapers directly substituting therefore, with the balance of the sheet homogeneous in character and composed of a minimum of 60% printed news wastepaper.

Definitions of grades of paperboard covered by Appendix B.

(17) All grades of paperboard covered by Appendix B:

(i) Which are of full-bending quality shall sustain a 180° fold across the grain when properly scored and folded as an integral part of corrugated sheets, or solid fibre sheets not exceeding .100 points in thickness.

(ii) Which are vat lined boards shall be made on a cylinder machine, with the top liner of uniform formation and of sufficient thickness to prevent any show-through of the filler.

(1) "Test" means minimum average Mullen or Cady test, and is to be determined as follows:

(1) Each roll is to be considered individually in determining whether the Mullen or Cady test of the paperboard is as specified. The tests shall be made according to TAPPI method T-403-m-36, in so far as apparatus and calibration are concerned.

(2) At least one sample is to be taken from each roll, and cut to size 12" x 12", for testing purposes. This sample shall be obtained from the outer laps of the roll immediately upon being rewound and tested within 15 minutes on a Mullen or Cady tester located in the same machine room, or in another room of the same conditions of temperature and relative humidity. The moisture content of the board when tested shall be within 6% to 8½%.

(3) In applying Mullen or Cady test, the plate above diaphragm must be firmly clamped down on board to prevent its slipping. At least two tests shall be made from each side of the sample and the tester shall be turned at a constant and uniform speed of about 2 revolutions per second. The average test of the sample is determined by securing a simple arithmetic average of these tests. This average test is to be used in determining the proper classification for pricing purposes.

If the producer had observed the practice of charging an additional differential for quantities of less than 1 ton during the base period of October 1, 1940 to October 15, 1941, such additional differential may now be charged.

8. Section 1347.61 (e) is amended to read as follows:

(e) *Exception to quantity differentials.* When a single purchaser places an order, for delivery at one time, for paperboard of one grade, color, type, weight, caliper and finish, and where the sizes ordered are combined to fill the trim of the seller's papermaking machine and can be made simultaneously without a change in the slitter or chopper knives as the paperboard leaves the machine, then the combined weight of such sizes shall be considered as the quantity of an item for the application of quantity differentials. A combination of sizes which when combined are within 3% of the full trim of the paper making machine shall be considered an acceptable trim of such machine when applying this exception to quantity differentials.

(1) The quantity differentials established in Appendix A are designed to compensate, in whole or in part, for the extra costs involved in handling and manufacturing small orders of paperboard. These quantity differentials apply on the quantity ordered for delivery at one time (see definition of item, and exception to quantity differentials.) While this regulation does not require any manufacturer to sell any person any specific quantity of paperboard, it is considered an indirect violation of this regulation for the manufacturer to demand (directly, or by threat of refusal to supply) that the customer place several orders of small quantities, rather than to accept one or more orders of larger quantities, solely for the purpose

of receiving the additional income from these quantity differentials—that is, six 2 ton orders, or four 3 ton orders, rather than one 12 ton order as the customer desires to place.

9. Section 1347.61 (f) is amended to read as follows:

(f) *Trimming.* For trimming sheets, to secure clean edges and/or more accurate measurements, add \$1.00 per ton for each side trimmed. (This charge does not apply when merely cutting two or more sheets from one larger sheet.)

10. Section 1347.61 (g) is amended to read as follows:

(g) *Special size, special white, special color, special sizing, special test, or other special characteristics or requirements.* The prices and differentials set forth in paragraphs (a), (b), (c) and (d) of this section cover the types of paperboard described therein, or slight variations from these specified qualities. For special sizes, special whites, special colors, special sizing, special test, or other special characteristics or requirements, involving a difference in cost, the maximum price shall be determined by adding to, or subtracting from, the maximum price, as established by paragraphs (a), (b), (c) and (d) of this section for the particular type of paperboard involved, a differential therefor as follows:

(1) For items sold or contracted to be sold at a definite price by the producer during the period of October 1, 1940 to October 15, 1941, inclusive, the differential shall be the differential applied during such period to the base price of such paperboard of comparable quantity, for the special sizes, special whites, special colors, special sizing, special test, or other special characteristics or requirements, if not otherwise specifically provided for in this section.

(2) For items not sold or contracted to be sold at a definite price by the producer during such period, the differential shall be the list price for such differential therefore effective during such period. If no list price for such differential was in effect during such period, an application for approval of a differential shall be made to the Price Administrator, Washington, D. C. When submitting such differential to the Price Administrator for approval the application made by the producer or by an officer or partner of the producer, shall contain complete price and cost data in the manner and form required by the Price Administrator on one or more comparable items described in this section and sold or contracted to be sold at a definite price by the producer during such period: *Provided, however,* That orders may be accepted and manufactured, and invoices issued, at a differential subject to approval, disapproval or adjustment by letter. A notation to this effect must be made on all quotations, orders and invoices of the particular quality involved until the differential is approved or adjusted. The application must be mailed to the Office of Price Administration, Code 695, Washington, D. C., within 10 days after the item has been produced, on forms which may be secured from

the Office of Price Administration, Code 695, Washington, D. C. Information must be included as to the name and address of the customer and the price agreed upon for the new grade or quality.

The differentials established by a producer under the provisions of this paragraph shall apply only to that producer and may not be used by any other producer without the specific authorization of the Price Administrator.

11. In § 1347.62 (a) ".016—56-68 lb. Jute—100 lb. Test ----- \$1.92" is amended to read as follows:

.016—56-68 lb. Jute—100 lb. Test to less than 110 lb. Test ----- \$2.02*

12. In § 1347.62 (a) two items are added to read as follows:

.016—56-68 lb. Jute—85 lb. Test to less than 100 lb. Test ----- \$1.92*

.016—56-68 lb. Jute—Less than 85 lb. Test ----- 57.50* per ton

13. In § 1347.62 (b) ".030—96-110 lb. Jute—135 lb. Test ----- \$3.30" is amended to read as follows:

.030—95-110 lb. Jute—135 lb. Test --- \$3.47*

14. In § 1347.62 (e) ".007—21 lb. up to .017----- \$47.50" and ".007 and heavier----- \$45.00" are amended to read as follows:

.007—21 lb. up to .016----- \$50.50*

.007 and heavier----- 48.00*

15. Section 1347.62 (g) is amended to read as follows:

(g) *Special size, special white, special color, special sizing, special test, or other special characteristics or requirements.* The prices and differentials set forth in paragraphs (a), (b), (c), (d) and (e) of this section cover the types of paperboard described therein, or slight variations from these specified qualities. For special sizes, special whites, special colors, special sizing, special test, or other special characteristics or requirements, involving a difference in cost, the maximum price shall be determined by adding to, or subtracting from, the maximum price, as established by paragraphs (a), (b), (c), (d) and (e) of this section for the particular type of paperboard involved, a differential therefore as follows:

(1) For items sold or contracted to be sold at a definite price by the producer during the period of October 1, 1940 to October 15, 1941, inclusive, the differential shall be the differential applied during such period to the base price of such paperboard of comparable quantity, for the special sizes, special whites, special colors, special sizing, special test, or other special characteristics or requirements, if not otherwise specifically provided for in this section.

(2) For items not sold or contracted to be sold at a definite price by the producer during such period, the differential shall be the list price for such differential

* See note to table in section 1347.61 (a).

⁵ This maximum price shall remain in effect up to and including January 14, 1944, and effective on January 15, 1944, the maximum price shall be \$1.82.

⁶ This maximum price shall remain in effect up to and including January 14, 1944, and effective on January 15, 1944, the maximum price shall be \$55.00 per ton.

FEDERAL REGISTER, Tuesday, November 2, 1943

therefore effective during such period. If no list price for such differential was in effect during such period, an application for approval of a differential shall be made to the Price Administrator, Washington, D. C. When submitting such differential to the Price Administrator for approval, the application made by the producer or by an officer or partner of the producer, shall contain complete price and cost data in the manner and form required by the Price Administrator on one or more comparable items described in this section and sold or contracted to be sold at a definite price by the producer during such period: *Provided, however,* That orders may be accepted and manufactured, and invoices issued, at a differential subject to approval, disapproval, or adjustment by letter. A notation to this effect must be made on all quotations, orders and invoices of the particular quality involved until the differential is approved or adjusted. The application must be mailed to the Office of Price Administration, Code 695, Washington, D. C., within 10 days after the item has been produced, on forms which may be secured from the Office of Price Administration, Code 695, Washington, D. C. Information must be included as to the name and address of the customer, and the price agreed upon for the new grades or quality.

The differentials established by a producer under the provisions of this paragraph shall apply only to that producer and may not be used by any other producer without the specific authorization of the Price Administrator.

16. Section 1347.62 (k) is added to read as follows:

(k) Where the maximum price of paperboard is on a per M square foot basis, the square footage to be invoiced is to be determined by one of the following procedures:

NOTE: Paperboard on which the maximum price, as covered by this Appendix, is on a per M. square foot basis may not be invoiced at a price per ton.

(1) The paperboard in each roll is measured mechanically as it is wound to secure the lineal footage in such roll. This figure multiplied by the width of the roll (in decimals of a foot-to-two-places, e. g. 50 inch width equals 4.17 foot) results in the square footage to be invoiced.

(2) A sample is taken from each roll and cut accurately to size 12" x 12" square (1 square foot). The accurate weight of this sample (secured by weighing on a balance scale) multiplied by 1,000 results in the weight per thousand square feet for that roll. The simple arithmetic average of these weights, from the samples of the rolls in the shipment, divided into the total weight of the shipment results in the square footage to be invoiced. Each truckload or carload of paperboard is to be considered individu-

ally as a shipment when determining the square footage to be invoiced.

This amendment shall become effective November 4, 1943.

(e) *Interim orders.* Where a petition is filed by a landlord on one of the grounds set out in paragraph (a) of this section, the Administrator may enter an interim order increasing the maximum rent until further order, subject to refund by the landlord to the tenant of any amount received in excess of the maximum rent established by final order upon such petition. The receipt by the landlord of any increased rent authorized by such interim order shall constitute an agreement by the landlord with the tenant to refund to the tenant any amount received in excess of the maximum rent established by final order. The landlord shall make such refund either by repayment in cash or, where the tenant remains in occupancy after the effective date of the final order, by deduction from the next installment of rent or both.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[RO 5C;² Amdt. 81]

MILEAGE RATIONING: GASOLINE REGULATIONS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 5C is amended in the following respects:

1. In § 1394.8114 the headnote is amended to read as follows: "Authority of Regional Administrators, District Directors and persons designated by either of them to cancel and require the surrender of coupons, coupon books, gasoline deposit certificates and ration credits."

2. Section 1394.8114 (a) is amended to read as follows:

(a) The several Regional Administrators and District Directors of the Office of Price Administration are authorized to determine upon review of the action of any Board within their respective regions or districts, whether any ration holder was entitled under the provisions of Ration Order No. 5C to receive the ration issued to him or whether any dealer or intermediate distributor was entitled under the provisions of Ration

Order No. 5C to receive any inventory coupon or gasoline deposit certificate issued to him, or credits in a ration bank account arising from the deposit of such coupon or certificate. The authority vested in Regional Administrators and District Directors in this paragraph may be exercised by any person designated by the Regional Administrator or District Director to act in his name for such purpose.

Section 1394.8114 (b) is amended to read as follows:

(b) In any case where a Regional Administrator or a District Director or a person designated by him is authorized by any provision of Ration Order No. 5C to review or redetermine the right of any ration holder to receive any ration, or the right of any dealer or intermediate distributor to receive any inventory coupon or gasoline deposit certificate, such officer, before requiring the surrender of any such documents or credits shall notify the holder that his right to retain such documents or credits is under review and shall allow a reasonable time in which the holder may present evidence in support of his right to receive or retain such ration, coupon, certificate or credits under the provisions of Ration Order No. 5C. Such officer shall receive and consider any evidence presented by the holder, and may require him to appear for examination and to produce such witnesses or evidence as he may deem material. If the original application or certification and the other evidence presented fails to establish that the ration holder, dealer, or distributor was entitled under the provisions of Ration Order No. 5C to receive the ration books, coupons, or gasoline deposit certificates issued to him the Regional Administrator, District Director, or other designated person may order the surrender of any such books, coupons, or gasoline deposit certificates, or a ration check drawn upon credits arising from the deposit of such coupons or certificates. Any person required to surrender ration books, coupons, gasoline deposit certificates or ration credits by the terms of an order issued pursuant to this section shall surrender them as required by the terms of such order. Ration credits shall be surrendered by the issuance and delivery of a ration check payable to the Office of Price Administration. Any person may appeal from an adverse decision under such review or redetermination pursuant to Procedural Regulation No. 9.

4. In § 1394.8216 the headnote is amended to read "Certification of shortage, and disposal of invalidated coupons and evidences." The present text of § 1394.8216 is redesignated paragraph (a) of § 1394.8216 and a new paragraph (b) is added to read as follows:

(b) In the event that any dealer or intermediate distributor has in his possession or control any coupon or other evidence which he acquired after September 22, 1942, in exchange for a lawful transfer of gasoline, and which can no longer be lawfully transferred by him or deposited in a ration bank account at the same unit value which such coupon or other evidence had at the time and place it was surrendered by a consumer in exchange for a transfer of gasoline, the dealer or intermediate distributor shall surrender such coupon or other evidence to the Board having jurisdiction over the area where his place of business is located. Every dealer and intermediate distributor shall prepare, in triplicate, on Form OPA R-541, a list of the coupons and other evidences so surrendered and the unit value which each such coupon or other evidence had at the time and place it was surrendered by a consumer in exchange for a transfer of gasoline, and a written statement in triplicate setting forth: (1) the reasons he was unable to dispose of the coupons or other evidences within the time prescribed in § 1394.8215; (2) the storage capacity, quantity of gasoline on hand, and the total gallonage value of the ration credits, gasoline deposit certificates, coupons and other evidences on hand for such place of business. The dealer or intermediate distributor shall sign the summary of coupons and evidences (Form OPA R-541) and the statement and shall file the original and one copy thereof with the Board having jurisdiction over the area where his place of business is located. The Board shall forward one copy of the summary and statement, containing a notation of the action of the Board thereon, to the Chief Enforcement Attorney in the Office of the District Director having jurisdiction over the area where the Board is located. If the Board finds that the coupons were acquired by the dealer or intermediate distributor at the unit value listed, in exchange for a lawful transfer of gasoline, and that there was good reason for the dealer or intermediate distributor's failure to dispose of the coupons within the time prescribed, the Board shall issue inventory coupons, in the case of a dealer, or a gasoline deposit certificate, in the case of an intermediate distributor, equal in gallonage value to the listed value of the coupons surrendered, except that the Board shall not issue inventory coupons or a gasoline deposit certificate in an amount which would cause the aggregate gallonage value of all ration credits, gasoline deposit certificates, coupons or other evidences in the possession or control of the dealer or intermediate distributor to exceed the unfilled storage capacity of such dealer or intermediate distributor. In the event the Board disallows the application it shall retain all coupons and other evidences which are

invalid and return to the applicant those evidences which are still valid and which then have a value less than the value at which they were received by the applicant.

5. Section 1394.8218 (e) is added to read as follows:

(e) In the event that any licensed distributor has in his possession or control at any of his facilities any coupons or other evidences which he acquired after September 22, 1942, in exchange for a lawful transfer of gasoline, but which can no longer be deposited by him in a ration bank account at the same unit value as such coupons or other evidences had at the time the gasoline was transferred, the licensed distributor shall surrender such coupons and other evidences to the Board with which the facility of such licensed distributor is registered. All coupons and other evidences so surrendered shall be listed by the licensed distributor on triplicate copies of Form OPA R-541, at the unit value which the coupons and other evidences had at the time of transfer of the gasoline in exchange for which the coupons or other evidences were received. The Board shall retain one copy of the Form OPA R-541, and shall endorse a receipt and the Board's address upon the original and one copy and return them to the licensed distributor. At the time of his submission of his next monthly state motor fuel tax report, the licensed distributor shall also submit, attached to his reconciliation statement (Form OPA R-550) the original summary on Form OPA R-541, bearing the receipt of the Board, and, on an attached statement, shall explain in detail the circumstances surrounding his failure to deposit the coupons or other evidences within the time allowed. He shall report on line 18 of his reconciliation statement (Form OPA R-550) the total listed value of the coupons or other evidences which have been so surrendered by him to the Board and which have not been reported on a reconciliation statement previously submitted. If the Office of Price Administration, Washington, D. C., finds that the coupons were acquired by the distributor at the unit value listed, in exchange for a lawful transfer of gasoline, and that there was good reason for the distributor's failure to deposit the coupons or other evidences within the time allowed, it will credit the licensed distributor with the value of the coupons or other evidences surrendered to the Board, and instruct the Board to destroy the coupons or other evidences so surrendered.

This amendment shall become effective November 3, 1943.

1. Section 1394.5653 (b) (1) is added as follows:

(1) On and after November 1, 1943, a dealer or primary supplier may not transfer fuel oil to a consumer (other than an agency specified in § 1394.5454 (a)) except in exchange for coupons equal in gallonage value to the amount of the fuel oil transferred, surrendered at the time of the transfer, if at the time of the transfer the consumer has failed to surrender evidences (or delivery receipts) to the transferor for any previous transfer of fuel oil and more than fifteen (15) days have elapsed since that surrender was required.

8. Section 1394.5687 (f) is added as follows:

(f) If a transferor permits a consumer to issue a check for a transfer of at least 2000 gallons of fuel oil after the transfer (according to and up to the maximum period permitted by paragraph (b) or (c) of this section), the transferor may,

at his option, permit the consumer to include in the check the gallonage value of any fuel oil transferred by the transferor to the consumer between the date on which the transfer of at least 2000 gallons was made and the date on which the issuance of the check for that transfer is required.

9. Section 1394.5689 is added as follows:

§ 1394.5689 *When a check must be issued by a consumer who has failed to surrender evidences for previous transfers.* (a) On and after November 1, 1943, a dealer or primary supplier may not transfer fuel oil to a consumer who is a depositor, except in exchange for a ration check or other evidences, (equal in gallonage value to the amount of fuel oil transferred) issued at the time of, or at the option of the transferor within fifteen (15) days in advance of, the transfer, if at the time of the transfer the consumer has failed to surrender a ration check or other evidences (or delivery receipts) to the transferor for any previous transfer of fuel oil and more than fifteen (15) days have elapsed since that surrender was required.

(b) On and after November 1, 1943, a consumer who is a depositor may not accept a transfer of fuel oil from any transferor except in exchange for a ration check or other evidences, (equal in gallonage value to the amount of the fuel oil transferred) surrendered to the transferor at the time of, or at the option of the transferor within fifteen (15) days in advance of, the transfer, if at the time of the transfer the consumer has failed to surrender a ration check or other evidences (or delivery receipts) to any transferor for any previous transfer of fuel oil and more than fifteen (15) days have elapsed since that surrender was required.

The text of § 1394.5709 is renumbered § 1394.5709 (a) and is amended by deleting the parenthetical expression "(or any dealer who receives a transfer or return of fuel oil from another dealer who is within the limitation area)" and by inserting after the word "shall" the phrase "at the time of, or at the option of the transferor within fifteen (15) days after or within fifteen (15) days in advance of the transfer."

14. Section 1394.5709 (b) is added as follows:

15. Section 1394.5724 is amended to read as follows:

§ 1394.5724 *Application to replace dealer's losses.* (a) Any dealer may apply to his Board, on OPA Form R-1120, and upon the conditions mentioned on the form, for evidences to replace his unavoidable and unrecoverable losses or shortages of fuel oil, evidences, or delivery receipts. The applicant shall supply the information required by that form.

Allowances may be made only for:

(1) Losses of fuel oil, evidences, or delivery receipts acquired by the applicant in accordance with this order.

(2) Other shortages of fuel oil, evidences, or delivery receipts acquired by the applicant in accordance with this order. If the fuel oil, evidences, or delivery receipts were transferred, they must also have been transferred by the applicant in accordance with this order.

(b) If the shortage or loss of evidences or delivery receipts occurs before November 1, 1943, the application must be made before January 1, 1944, unless the applicant shows good cause for applying later. If a shortage or loss of evidences or delivery receipts occurs on or after November 1, 1943, or if a shortage or loss of fuel oil occurs at any time, application to replace the shortage or loss must be made within a reasonable time after it occurs. Except in the case of an extraordinary loss of fuel oil, evidences, or delivery receipts (for example, when caused by fire, theft, or accident), application may not be made more often than once a month.

(c) Unless the District Director is authorized by the Washington Office to

do so, the Board may act on the application and may issue to the applicant evidences equal in gallonage value to the allowable loss or shortage described in paragraph (a) of this section.

(d) No allowance of loss or shortage made under this section shall operate as a waiver of any violations of this order.

16. Section 1394.5725 is added as follows:

§ 1394.5725 *Primary suppliers may explain losses or shortages.* A primary supplier may submit with his OPA Form R-1119 an explanation for any unavoidable or unrecoverable loss or shortage of fuel oil, evidences, or delivery receipts. If the shortage or loss of the fuel oil, evidences, or delivery receipts is satisfactorily explained and if it did not result from the primary supplier's violation of this order, the Washington Office may accept the explanation in lieu of evidences.

17. Section 1394.5726 is added as follows:

§ 1394.5726 *Surrender of excess evidences.* (a) A dealer, who has acquired evidences or delivery receipts of a gallonage value in excess of the amount he may properly receive under this order, or who has failed to deliver evidences as required by this order, must surrender to the person entitled to them under this order, or, if he is unknown, to the Board with which the dealer is registered (or to any employee of OPA authorized for that purpose) evidences equal in gallonage value to the excess or to the amount he failed to deliver. Unless the surrender is made to the person so entitled, the dealer must submit with the evidences a statement explaining the manner in which the excess or failure to deliver occurred.

(b) Any primary supplier, who has acquired evidences or delivery receipts of a gallonage value in excess of the amount he may properly receive under this order, or who has failed to deliver evidences as required by this order, must surrender to the person entitled to them under this order, or, if he is unknown, to the Control and Audit Section, Fuel Oil Rationing Branch, Office of Price Administration, Washington, D. C. with his next monthly report on OPA Form R-1119, evidences equal in gallonage value to the excess or to the amount he failed to deliver. Unless the surrender is made to the person so entitled, the primary supplier must submit with the evidences a statement explaining the manner in which the excess or failure to deliver occurred.

(c) If a dealer, who received evidences for a shortage or loss pursuant to § 1394.5724, or of a primary supplier, whose explanation of a shortage or loss was accepted under § 1394.5725, subsequently recovers the fuel oil, evidences, or delivery receipts, for the shortage or loss of which the dealer received evidences, or the primary supplier's explanation was accepted, he shall immediately surrender evidences equal in gallonage value to the amount of such receipt or recovery to the Board, if he is

a dealer, or the Washington Office, if he is a primary supplier.

13. Section 1394.5734 is added as follows:

§ 1394.5734 *Dealers' accounts must be in balance.* Every dealer shall be accountable for all fuel oil, coupons and other evidences, ration credits, delivery receipts and, if he is also a consumer, fuel oil deposit certificates received by him. Coupons and other evidences and delivery receipts received at or for a dealer establishment shall, at all times when the dealer is open to transact business, be retained by him at the establishment for which they were received until such time as they are surrendered pursuant to this Ration Order 11, or, if he is a depositor, the coupons and other evidences and fuel oil deposit certificates may be on deposit in the appropriate ration bank account. No dealer shall have evidences, delivery receipts or ration credits the aggregate gallonage value of which is less than or in excess of the unfilled storage capacity of the storage facilities shown in his current registration certificate, except to the extent that he can account for such excesses or deficits by reason of conditions which are not due to his violations of other provisions of this order. However, in ascertaining whether a dealer's accounts are in balance, fuel oil delivered to him for which he has not yet surrendered evidences, evidences for which he has not yet transferred fuel oil, and the gallonage value of the unused portion of his fuel oil deposit certificates, must not be included.

This amendment shall become effective on November 1, 1943.

[§ 1407.69 amended and § 1407.70 revoked by Amendment 98, effective 11-1-43]

SEC. 1407.71 Home processing and preserving for use. (a) A person registered as a consumer may obtain sugar for the purpose of producing processed foods from fresh fruits for use, in accordance with sections 26.2, 26.5, and 26.6 of Ration Order 13* (or for making the gifts permitted by those sections), or for making jams, jellies, preserves, or fruit butters.

(b) Sugar for the purpose of producing processed foods from fresh fruits, for such use, may be obtained and used at the rate of not more than one pound of sugar per four quarts (or eight pounds) of finished processed foods. Sugar for the purpose of making jams, jellies, preserves, or fruit butters may be obtained and used by a consumer in an amount not to exceed five pounds. However, the total amount of sugar which may be obtained by a consumer for both these purposes, for the period from March 1, 1943, to February 29, 1944, inclusive, shall not exceed 25 pounds.

(c) Notwithstanding anything to the contrary contained in Rationing Order No. 3, Stamps Nos. 15 and 16 each authorizes a consumer to obtain sugar on or before October 31, 1943, to be used solely for the purposes stated in paragraphs (a) and (b) of this section in an amount not to exceed five pounds. However, in no event shall a consumer use either such stamp to obtain sugar in an amount which, when added to the amount of sugar otherwise obtained by such consumer for such purposes between March 1, 1943, and February 29, 1944, inclusive, would exceed 25 pounds. The use of such stamps by a consumer to obtain sugar shall constitute a representation by the consumer to the Office of Price Administration that he is entitled to obtain such sugar under the provisions of this section.

(d) Applications for sugar needed for the purposes covered by this section, in addition to that which may be obtained on or before October 31, 1943, under paragraph (c) of this section, shall be made, in writing, to the board for the place where he lives, by one adult member of a family unit for all members of the unit (or, if there is no adult member, by the oldest member or by a responsible person) or by a consumer not a member of a family unit for himself (or, if a minor, not self-supporting, by his parent or guardian or by a responsible adult). The applicant shall either in person or by mail present to the board the War Ration Books One issued to the persons on whose behalf the application is made.

* 8 F.R. 11048, 11383, 11483, 11563, 11513, 11753, 11812, 12026.

In addition, the applicant shall in his application state (1) the number of quarts (or pounds) of processed foods the applicant, and the members of the family unit of which he is a member for whom application is made, has produced since March 1, 1943, or intends to produce from fresh fruits, for use; (2) the amount of sugar obtained pursuant to this section used or to be used in the making of jams, jellies, preserves, and fruit butters; (3) that he has used or will use any sugar obtained pursuant to paragraph (c) of this section in accordance with this section; and (4) such other information as the board may require. The board shall determine the total requirements of sugar of the applicant, for the period from March 1, 1943, to February 29, 1944, for the purposes covered by this section, and shall, to the extent permitted under the provisions of paragraph (b) of this section, issue coupons or a certificate to the consumer in weight value equal to such requirements less ten pounds (since the consumer will be able to obtain ten pounds of sugar for the purposes covered by this section by the use of stamps 15 and 16, as set forth in paragraph (c) of this section). The weight value of the coupons or certificate issued by the board, however, shall in no event exceed 15 pounds. However, if the board acts on the application after October 31, 1943, the board shall determine the total requirements of sugar of the applicant, for the period from March 1, 1943, to February 29, 1944, for the purposes covered by this section, and shall, to the extent permitted under the provisions of paragraph (b) of this section, issue coupons or a certificate to the consumer in weight value equal to such requirements, less five pounds for each stamp 15 or 16 that is not attached to the consumer's War Ration Book One. The weight value of the coupons or certificates issued, however, shall in no event exceed 25 pounds. The board shall note on the cover of the War Ration Book One of each person for whom application is made the weight value of the coupons or certificate issued to such person under this paragraph and the date of issuance. However, a person who has not been issued a War Ration Book One may submit, instead of such a book, his War Ration Book Four together with a statement in writing that he has not been issued a War Ration Book One. If the board finds that the statement is

true, it may issue coupons or a certificate to him in the amounts and in the manner set forth in this paragraph after noting on the cover of the War Ration Book Four of such person the weight value of the coupons or certificates so issued and the date of issuance.

(e) Notwithstanding anything to the contrary contained in this section, a consumer whose total requirements of sugar for the purposes covered by this section are from one to four pounds, inclusive, or from six to nine pounds, inclusive, shall apply to the board pursuant to paragraph (d) of this section. If the total requirements of the applicant, determined by the board, are from one to four pounds, inclusive, the board shall detach from the book of the applicant Stamps Nos. 15 and 16; if they are from six to nine pounds, inclusive, the board shall so detach Stamp No. 15 or 16. The board shall issue coupons or a certificate for the amount of such requirements less the weight value of any such stamp not so detached. Such issuance shall be noted on the cover of the book, in accordance with paragraph (d) of this section. This paragraph shall not apply to applications acted on by the board after October 31, 1943.

(f) Sugar obtained pursuant to this section shall be used only in the quantities and for the purposes permitted by this section and the processed foods produced therewith shall be used only as permitted by sections 26.2, 26.5, and 26.6 of Ration Order 13.

Such sugar may be obtained at the rate of not more than one pound of sugar per four quarts (or eight pounds) of finished home processed foods. However, the total amount of sugar obtained for such purposes, for the period from March 1, 1943 to February 29, 1944 inclusive, shall not exceed 250 pounds and no more than one such allowance shall be granted to a family unit.

(b) Applications for sugar in accordance with this section shall be made on OPA Form R-315. The applicant shall state (1) the number of quarts (or pounds) of home processed foods he intends to produce from fresh fruits; (2) the amount of sugar applied for; (3) the address at which the processing will be done; (4) the type of facilities to be used; (5) whether any member of the family unit of which he is a member has received an allowance under this section; and (6) such other information as the board may require.

(c) The board shall grant the application to the extent permitted under the provisions of this section and shall issue a certificate in weight value equal to the amount of sugar allowed.

(d) The applicant shall make the reports and keep the records required of him by Ration Order 13.

(e) Sugar obtained pursuant to this section shall be used only in the quantities, during the period, and for the purposes for which it was allowed and the home processed foods produced with such sugar shall be delivered, sold, or transferred by the applicant only in accordance with the provisions of Ration Order 13.

§ 1407.73 *Consumer handicapped by transportation difficulties.* (a) A registered consumer to whom a War Ration Book has been issued who, because of transportation difficulties, finds it a hardship to take delivery of sugar at the times and in the amounts specified in § 1407.243, may apply for a certificate authorizing him to take delivery of a quantity of sugar not in excess of fifteen (15) pounds. The application therefor shall be made to the Board on OPA Form No. R-315 by the consumer personally, by an adult member of his family unit, by an authorized agent, or by any other person authorized to register for him. The applicant may apply by mail or in person. The Board, in its discretion, may grant the application: *Provided*, That the amount allowed such consumer shall not exceed fifteen (15) pounds of sugar. Before issuing a certificate in such case, the Board shall detach from the War Ration Book of the consumer stamps having a weight value equal to the amount for which the certificate is issued; if the amount so allowed is greater than the weight value of the unexpired stamps in his War Ration Book to which a weight value has been assigned in § 1407.243 the War Ration Book shall be surrendered to the Board and held until stamps may be detached having a weight value equal to such amount.

§ 1407.81 *Registering unit.* As used in §§ 1407.81 to 1407.94, the term "registering unit" refers only to the institutional users which are included within such registering unit.

[§ 1407.81 as amended by Amendment 44, 8 F.R. 2675, effective 3-1-43]

§ 1407.82 *Prohibited deliveries.* (a) On and after April 23, 1942, notwithstanding the terms of any contract, agreement, or commitment, regardless of when made, no person shall make delivery of sugar to any registering unit or any institutional user and no registering unit or institutional user shall accept delivery of sugar from any person except upon the surrender to such person by the registering unit or institutional user pursuant to this order of a certificate having a total weight value equal to the quantity of sugar so delivered; except that any sugar which at the time of registration of the registering unit has been included in its present inventory pursuant to § 1407.84 or any sugar which has been included, or was required to be included, in the opening inventory of an institutional user establishment pursuant to General Ration Order 5, may be received without the surrender of certificates.

(b) Deliveries of sugar from one institutional user establishment to another institutional user establishment of the same owner are governed by General Ration Order 5.

[§ 1407.82 as amended by Amendment 44, 8 F.R. 2675, effective 3-1-43]

§ 1407.83 *Registration.* (a) Except as the Office of Price Administration may otherwise authorize, registration shall be made on April 28 or 29, 1942, for each registering unit on OPA Form R-310 (Registration of Industrial and Institutional Users) at a registration site designated for the area in which the principal business office of the owner is located.

[Paragraph (a) as amended by Amendment 7, 7 F.R. 6084, effective 8-8-42]

(b) The Form shall be presented for filing, and signed in the presence of a

Registrar, by the owner, a partner (if the owner is a partnership), an officer (if the owner is a corporation, association, or similar organization), or manager of the owner. The Registrar in whose presence the Form is signed shall witness the signature and certify to the execution thereof.

(c) If the registering unit is composed of more than one establishment there shall be attached to the Registration Form a list of the establishments included, with the address of each: *Provided, however,* That a registering unit composed of establishments located on mobile conveyances, including vessels and airplanes, need not list such mobile conveyances.

A registering unit whose sugar base has been established in part on an institutional use of sugar by the registering unit or its owner shall before making application for an allotment, amend its registration by filing a new OPA Form R-310, excluding from its sugar base all sugar so used.

[Paragraph (e) added by Amendment 44, 8 F.R. 2675, effective 3-1-43]

§ 1407.84 *Present inventory.* (a) The present inventory of a registering unit is the aggregate of all sugar in the possession of, or intended to be used by, the registering unit, to which, at the time of registration, the owner of the registering unit has title or holds documents of title, or which was in transit or stored for delivery to the registering unit and out of the possession of the vendor, prior to April 28, 1942. The owner shall be deemed to have title to sugar regardless of the fact that it may have been mortgaged, pledged, or otherwise used as security in a credit transaction, or that its use may have been prohibited by any order of the War Production Board. Every person who owns one or more registering units must include all sugar to which he has title (except sugar held for personal use and sugar in the possession of his vendor) in the present inventories of such registering units, allocating such sugar among those of his registering units as he selects.

(b) The present inventory, as adjusted, of a registering unit shall be reduced by the amount of sugar declared or required to be declared by the owner as a part of the opening inventory of an institutional user establishment pursuant to General Ration Order 5.

[Paragraph (b) added by Amendment 44, 8 F.R. 2675, effective 3-1-43]

§ 1407.85 *Sugar base.* (a) The sugar base for a registering unit proposing to use sugar for any product or purpose other than the products or purposes set forth in § 1407.241, Schedule A of Rationing Order No. 3, is, for any month, the amount of sugar used by the registering unit for such product or purpose during the corresponding month of 1941.

(b) If a registering unit proposes to use sugar for any product or purpose other than those listed in § 1407.241, Schedule A of Rationing Order No. 3, but did not use sugar for such product or purpose in each month of 1941, its sugar base for such product or purpose for each month may be, at the option of the registering unit, the amount arrived at by dividing the total quantity of sugar used for such purpose during the period from January 1, 1941, to April 28, 1942, by the number of months the registering unit was in business during that period. In making this computation any period in excess of 15 days shall be deemed a month.

(c) There shall not be included in the computation of the sugar base any sugar used in products which were delivered to the Army or Navy or to any of the persons or agencies enumerated on April 21, 1942, in paragraph (b) of § 1407.183.

[Paragraph (c) as amended by Amendment 45, 8 F.R. 2758, effective 3-2-43. Former (c) revoked, and (d), (e), and (f) redesignated (c), (d), and (e), respectively, by Amendment 44, 8 F.R. 2675, effective 3-1-43]

(d) The information necessary to compute the sugar base of the registering unit in accordance with the provisions of this section shall be entered on Schedule I of OPA Form No. R-310 (Registration of Institutional and Industrial Users).

(e) For each period commencing on or after November 1, 1942, there shall not be included in the sugar base of a registering unit, any sugar used in the manufacture of condensed milk packaged in containers holding more than one gallon.

[Paragraph (e) added by Amendment 14, 7 F.R. 7510, effective 11-1-42]

(f) For each period commencing on or after March 1, 1943, there shall not be included in the sugar base of a registering unit any sugar of which the registering unit or its owner made an institutional use.

[Paragraph (f) added by Amendment 44]

§ 1407.86 *Allotment.* (a) A registering unit which uses sugar for any purpose or product not enumerated in § 1407.241, Schedule A, and which has established a sugar base by registration on OPA Form R-310, is eligible for an amount of sugar for each of such products or purposes which is known as an allotment. The amount of an allotment for each period for which application is made shall be the applicable percentage specified in § 1407.242, Schedule B, of the sugar base.

(b) Application for an allotment made during the registration period shall be for the period from the date of registration to June 30, 1942. All subsequent applications shall be for consecutive two

month periods, the first of which shall commence on July 1, 1942. Applications shall be made not later than the 5th day of the first month of the period for which the application is being made and not earlier than the 15th day of the month preceding the period. The board, however, to prevent loss of fresh fruits, vegetables, eggs, or dairy products, or for other purposes authorized by the Office of Price Administration, may permit the application to be made at any time during the month preceding such period and in such cases may permit the application to be made for a period not to exceed one additional month. The board, in its discretion, may permit an application to be made at any time after the time specified herein, but in such case the board shall reduce the allotment by the amount allocable to the expired portion of the period, in the proportion which the number of days which have elapsed bears to the total number of days in the period: *Provided, however, That the board shall not reduce the March-April, 1943, allotment of a registering unit which is required under the provisions of paragraph (e) of § 1407.83, to amend its registration if the application for such allotment is made not later than the 20th day of March, 1943.*

[Paragraphs (a) and (b) as amended by Amendment 44, 8 F.R. 2675, effective 3-1-43]

(c) A registering unit shall be entitled to the following additional allotments, but only for the two month periods commencing July 1, 1942 and September 1, 1942: twenty-five per cent of each sugar base of its institutional users and ten per cent of each sugar base of its industrial users. The Board shall grant these allotments to the registering unit without further application therefor at the same time that such registering unit applies for its allotment for the period which commences on September 1, 1942.

[Paragraph (c) added by Amendment 6, 7 F.R. 6057, effective 8-7-42]

(d) A registering unit may apply in any month for an allotment for the manufacture during the following month of condensed milk to be packaged in containers holding more than one gallon. Application shall be made on OPA Form No. R-315 (Special Purpose Application). The registering unit shall send the original of the application to the Office of Price Administration in Washington and shall file a duplicate with the Board. The application shall set forth the amount of milk the registering unit will receive during the month for which the allotment is requested, its plant capacity, the amount of such milk which cannot be processed into non-sugar-containing products other than evaporated milk, or into condensed milk to be packaged by it in containers holding one gallon or less and such other information as the Office of Price Administration may require. The Office of Price Administration may grant such allotment for each month commencing with November 1942 in an amount which it considers necessary to prevent the spoilage of such milk. Each registering unit receiving an allotment

pursuant to this paragraph shall file with the Office of Price Administration such reports of the amount of milk received by it and its disposition of such milk and of the sugar allotted as the Office of Price Administration may require.

[Paragraph (d) added by Amendment 14, 7 F.R. 7510, effective 11-1-42]

(e) A registering unit may, but shall not be required to, make on OPA Form No. R-314, the application for an allotment specified in § 1407.88 of Rationing Order No. 3. A registering unit not making such application for any period commencing on or after April 28, 1942, shall be deemed to have been granted for that period the full allotment to which it would have been entitled if it had made such application within the time specified in paragraph (b) of this section. A registering unit which made such application for any period expiring on or before December 31, 1942, after the time specified therefor in paragraph (b), shall be deemed to have been granted an increase in its allotment for that period equal to the amount of the reduction made pursuant to paragraph (b). No certificate shall be issued for any allotment or increase in allotment granted pursuant to this paragraph (e).

[Paragraph (e) added by Amendment 24, 7 F.R. 9396, effective 11-19-42]

(f) Notwithstanding the provisions of paragraph (b), no registering unit may apply for an allotment for the period beginning March 1, 1943, to be used by the registering unit in the preparation or service of food or beverages which the registering unit or the owner of the registering unit will serve to consumers or for an allotment on that part of a base which was established on the basis of such a use: *Provided, however, That a registering unit that applies on or before February 27, 1943, may obtain an allotment not in excess of one-fourth of the amount which it obtained on the basis of such use pursuant to this section for the January-February period. Any allotment granted pursuant to this paragraph shall be deducted from future allotments for such use (institutional user allotments).*

[Paragraph (f) added by Amendment 39, 8 F.R. 2026, effective 2-12-43]

(g) A registering unit shall be entitled to the following additional allotments: for the period beginning July 1, 1943, 10 percent of its sugar base for the month of August 1943, and for the period beginning September 1, 1943, 10 percent of its sugar base for the months of September and October. The board shall grant these additional allotments to the registering unit, without further application therefor, at the same time that such registering unit applies for its allotment for the period which commences on September 1, 1943.

[Paragraph (g) added by Amendment 80, 8 F.R. 11252, effective 8-14-43]

§ 1407.86a *Increases in allotments based on increases in population.* (a) A registering unit which in 1941 delivered, to a county designated in § 1407.244, Schedule D, of Rationing Order No. 3,

products with respect to which it has a sugar base for industrial use, shall be entitled to have the allotment on that sugar base increased by the percentage shown for such county in Schedule D, multiplied by the percentage which the amount of sugar it used in such products, delivered in 1941 to such county, represents of the total amount of sugar it used in such products delivered in 1941. Deliveries, as used in this section, refer to final deliveries, directly or by independent carrier, but do not include deliveries to the Army or Navy of the United States or to persons specified in § 1407.183 (b). The registering unit shall include as its 1941 deliveries to a designated county: (1) deliveries of such products in 1941 by the registering unit to all places in such county not listed in paragraph (b), and (2) deliveries of such products in 1941, with or without further processing, by persons referred to in paragraph (b) from places listed in paragraph (b), wherever located, to all places in such county not so listed.

(b) The places referred to in paragraph (a) are as follows:

(1) An industrial user establishment or warehouse included within the registering unit, or

(2) A plant or warehouse of the owner of the registering unit, or

(3) A plant or warehouse of a person having an exclusive contract to process and distribute, or distribute without processing, in more than one country products of the registering unit, or

(4) A plant or warehouse of a person owning more than 50 per cent of the stock of the owner of the registering unit, or a plant or warehouse of a corporation or other organization more than 50 per cent of the stock of which is owned by such person or by the owner of the registering unit.

(c) The allotments to be increased by this section shall be the allotments for industrial use provided by § 1407.86 (a), (c) and (g) of Rationing Order No. 3. A registering unit shall be entitled to such increase for each period commencing on or after September 1, 1942.

[Paragraph (c) as amended by Amendment 83, 8 F.R. 12181, effective 9-7-43]

(d) Application for the increase in allotment provided by this section shall be made for each period at the times and under the conditions specified in § 1407.86 (b) of Rationing Order No. 3, except that application for the full increase in allotment for the period commencing September 1, 1942 may be made at any time before November 6, 1942, and for the full increase in allotment for the periods commencing July 1, and September 1, 1943, at any time before September 6, 1943. The first application for such increase in allotment shall be made on OPA Form No. R-315 (Special Purpose Application). It shall state facts showing that the registering unit is entitled to the increase applied for and shall include such other information as the Office of Price Administration may require. Subsequent applications for such increase shall be made in the manner specified for applications for the allotment provided by § 1407.86 (a) of Ra-

tioning Order No. 3. A registering unit which applies for the increase in allotment provided by this section shall preserve for not less than two years the journals, ledgers, and other records and reports which it used in determining such increase. They shall be kept in the office of the registering unit and shall be made available for inspection by the Office of Price Administration and the Board.

[Paragraph (d) as amended by Amendment 79, 8 F.R. 11292, effective 8-14-43]

(e) If an amendment of Rationing Order No. 3 changes the increase in allotment to which a registering unit is otherwise entitled pursuant to this section, the registering unit shall apply on OPA Form No. R-315 for the increase in allotment as so changed, for the first period to which such amendment applies. It shall state facts showing that the registering unit is entitled to the increase in allotment as so changed, and shall include such other information as the Office of Price Administration may require.

[§ 1407.86a added by Amendment 10, 7 F.R. 6937, effective 9-5-42. Paragraph (e) added by Amendment 31, 7 F.R. 10845, effective 12-15-42]

§ 1407.86b Temporary increases in allotments due to military maneuvers. Whenever the Director of the Food Rationing Division of the Office of Price Administration finds that military maneuvers of the armed forces of the United States will cause temporary abnormal demands for sugar-containing products in the area in which such maneuvers are to be held, he may, upon defining such area, authorize such temporary increases in the allotments of registering units delivering such products within the affected area as he shall deem necessary.

[§ 1407.86b added by Amendment 53, 8 F.R. 4930, effective 4-15-43]

§ 1407.86c Increased allotments for certain bakery and other cereal products for the September 1, 1943, period.

(a) A registering unit may apply to the board for an increase in its allotment for the period beginning September 1, 1943, for the production (for human consumption) of each of the following two classes of products:

(1) Bread or other bakery products containing sugar and flour (including flour and meal of any kind) in a ratio of not more than 10 pounds of sugar for each 100 pounds of flour.

(2) Other cereal products containing sugar and processed grain in a ratio of not more than 10 pounds of sugar for each 100 pounds of processed grain; batters and mixes containing sugar and flour (including flour and meal of any kind) in a ratio of not more than 10 pounds of sugar for each 100 pounds of flour.

(b) Application shall be made by the registering unit on OPA Form R-315 and shall show separately for each class of products:

(1) The amount of the increase requested for each class of products;

(2) The higher of the two following percentages:

(i) The percentage of all sugar used by it during 1941 which it used in the production of such class of products; or

(ii) The percentage of all sugar used by it during May and June 1943 which it used in the production of such class of products.

(The application shall also show the figures from which the percentage was computed.)

(3) The total of all its sugar bases for the months of August, September, and October 1943; and

(4) A statement that it has the facilities to produce an additional quantity of the products in such class.

If the board finds that the facts stated in the application are true, it shall grant the application. The increase in allotment granted to the registering unit for each class of products must not exceed 20 per cent of the percentage figure shown in (2) times the total of all its sugar bases for the months of August, September, and October 1943.

(c) A registering unit may use an increase in allotment provided by this section only in the production of the class of products for which it was granted. Moreover, it must, out of the rest of its allotment for September and October 1943 (not counting increases provided by §§ 1407.86d and 1407.86e of this order), use an amount at least equal to the percentage referred to in paragraph (b) (2) times that allotment, only in the production of that class of products.

The total amount of the advances which may be obtained by a registering unit pursuant to this paragraph shall not exceed 15 pounds for each colony. The amounts advanced shall be deducted from the registering unit's 1943 provisional allowance for feeding bees; provided, that if an amount in excess of 10 pounds per colony is advanced, such excess shall be deducted from the registering unit's 1944 provisional allowance for feeding bees. Application for an advance shall be made to the Board on OPA Form No. R-315. The application shall establish compliance with the requirements of this paragraph, state that if the application is granted with respect to any colony, the registering unit will not remove honey from that colony until the bees in that colony begin to produce honey in 1943, and include such other information as the Board may require.

(f) If a registering unit has obtained a provisional allowance for the canning of a fruit it shall be entitled to an addition, thereto in an amount which will give to the registering unit a total maximum allowance per unit of that fruit not in excess of the average number of pounds of sugar it used per unit of all grades of such fruit (converted into 24 1/2's) during 1941. However, this paragraph does not apply to packing seasons ended prior to July 21, 1943.

The application shall also contain the certification of the local United States Department of Agriculture War Board that the additional sugar requested is required in order to prevent the loss of the registering unit's bees. If the Board finds that the facts stated in the application are true, it shall grant the application. The additional provisional allowance granted to the registering unit pursuant to this paragraph must not exceed 15 pounds per colony of bees per calendar year. For the purposes of this paragraph, the period from September 14 to December 31, 1943, shall be deemed to be a full calendar year.

(c) The allowable inventory of a registering unit registered as a wholesaler is the quantity of sugar equal to the total

obtained by taking the quotient arrived at by dividing the amount of sugar delivered to the registering unit in 1941 by twice the number of months it made deliveries of sugar during 1941 and adding thereto the quantity of sugar equal to the shipping unit by which the registering unit customarily took delivery of sugar on or about December 1, 1941.

(d) A registering unit may apply for a temporary increase in its allowable inventory in an amount not to exceed fifty percent of the allowable inventory permitted such registering unit pursuant to paragraph (b) or (c). If it is registered as retailer, it may also apply for a temporary increase not to exceed fifty percent of any permanent increase in its allowable inventory authorized by the Office of Price Administration. Application for the increase shall be made by the registering unit to the Board on OPA Form No. R-315. The board shall issue a certificate to the registering unit in weight value equal to the increase applied for if it is not in excess of the amount permitted pursuant to this paragraph; *Provided, however, That if the registering unit has not surrendered stamps or certificates to the board for cancellation in weight value equal to its excess inventory, as described in § 1407.107, and in weight value equal to any temporary increase in its allowable inventory previously authorized by the Office of Price Administration, the board shall grant the application and reduce the excess inventory and any previously authorized temporary increase, and, if the increase granted pursuant to this paragraph exceeds the weight value of such stamps and certificates required to be surrendered, a certificate shall be issued to the registering unit in weight value equal to the difference. Any temporary increase granted pursuant to this paragraph shall be cancelled on November 15, 1943, and the registering unit to which such temporary increase was granted pursuant to this paragraph shall thereupon, before accepting any deliveries of sugar, surrender to the Board for cancellation stamps or certificates equal in weight value to the increase granted under this paragraph.*

[Paragraph (e) added by Amendment 67, 8 F.R. 3010, effective 6-16-43; amended by Amendment 82, 8 F.R. 12023, effective 8-30-43 and Amendment 92, 8 F.R. 12390, effective 9-30-43]

Any temporary increase granted pursuant to this paragraph shall be cancelled on November 15, 1943, and the registering unit to which such temporary increase was granted pursuant to this paragraph shall thereupon, before accepting any deliveries of sugar, surrender to the Board for cancellation stamps or certificates equal in weight value to the increase granted under this paragraph.

§ 1407.106 *Issuance of certificates at registration.* If the present inventory of the registering unit is less than the allowable inventory, a certificate shall be issued by the Registrar to the registering unit in the amount applied for; in no event, however, shall the amount applied for be greater than the difference between the allowable inventory and the present inventory. If application is made for a certificate in weight value less than the maximum for which such application may be made, the allowable inventory shall be reduced by the amount by which the maximum weight value for which application could be made exceeded the weight value of the certificate applied for.

§ 1407.107 *Excess inventory.* The amount by which the present inventory exceeds the allowable inventory shall be known as the "excess inventory." The registration of a registering unit which has an excess inventory shall be completed, but such registering unit shall not be entitled to any certificates at the time of registration. Before it may accept any deliveries of sugar such registering unit must surrender to the Board for cancellation stamps or certificates in weight value equal to the amount of the excess inventory.

§ 1407.108 *Deliveries to registering units after registration.* After registration, the allowable inventory of a registering unit may be replenished upon the surrender, pursuant to Rationing Order

No. 3, of stamps and certificates received by the registering unit from the persons to whom its component establishments delivered sugar.

§ 1407.109 *Late registrations.* A registering unit which was not registered on April 28 or 29, 1942, may be registered thereafter at the office of the Board. In applying for late registration, the present inventory and the allowable inventory shall be computed and declared as of April 28, 1942.

§ 1407.109a *Ration banking by retailers and wholesalers.* (a) Each owner of a registering unit which includes or is composed of one or more wholesale establishments, more than one retail establishment, or a single retail establishment whose gross sales of all foods during the month of December 1942, or during any single calendar month since December 1942, were more than \$2500.00, shall open at least one account for all the component establishments of such registering unit.

[Paragraph (a) amended by Amendment 55, 8 F.R. 5318, effective 4-27-43 and Amendment 71, 8 F.R. 9304, effective 7-12-43]

(b) The owner of any other registering unit composed of only one retail establishment may open an account for such establishment if such establishment had an account on April 27, 1943, or has a ration bank account for any other rationed food. (A bank is not required to open or maintain such accounts, but if it does so, it must open or maintain them for any such retail establishment which applies.)

[Paragraph (b) added by Amendment 71, 8 F.R. 9304, effective 7-12-43. Former (b) revoked by Amendment 55]

(c) The owner of a registering unit described in paragraph (a) of this section may, at his option, open a separate account for each establishment, or for any group of establishments, in such registering unit.

(d) Each account shall be opened in the name of the owner, who shall designate the establishment or establishments to be served. All accounts shall be opened in accordance with General Ration Order No. 3A.

(e) An owner of a registering unit may transfer ration credits from one account to another by the issuance of a check without the delivery of sugar, if these accounts are carried for establishments in the same registering unit.

(f) [Revoked]

[Paragraph (f) added by Amendment 55, 8 F.R. 5318, effective 4-27-43 and revoked by Amendment 71, 8 F.R. 9304, effective 7-12-43]

§ 1407.110 *Records.* Establishments selling at retail or at wholesale shall keep records of all sugar received by them. An establishment operating as a wholesaler shall also keep a record of the names and addresses of all persons to whom sugar was delivered at wholesale and the quantities and dates of such deliveries. These

records shall be kept at the office of the registering unit of which the establishment is a part and shall be made available for inspection by the Office of Price Administration and the Board. Such records shall be retained for a period of not less than 2 years.

§ 1407.111 Replacement of sugar lost in repackaging. (a) A registering unit may obtain certificates in weight value equal to the amount of sugar lost by the retail and wholesale establishments included in the registering unit in packaging sugar: *Provided*, That the weight value of such certificates shall not exceed one per cent of the amount of sugar thus packaged.

(b) Application for such certificates shall be made by the registering unit for each six-month period ending October 31 or April 30. It shall be made to the Board on OPA Form No. R-315, in the month following the close of each such period, and shall establish compliance with the requirements of paragraph (a) of this section and include such other information as the Board may require.

[§ 1407.111 added by Amendment 21, 7 F.R. 8830, effective 11-4-42]

§ 1407.112 Surrender of certain expired stamps and certificates in exchange for certificates or reduction of excess inventory. (a) A registered retailer or wholesaler may surrender to the board any stamps numbered 1 through 9 or any expired certificates in exchange for which he delivered before March 19, 1943, and within the periods specified in § 1407.141, the quantity of sugar authorized to be delivered by such stamps and certificates. If his excess inventory as adjusted pursuant to § 1407.107 is equal to or greater than the weight value of such surrendered stamps and certificates, the board shall reduce the excess inventory by the weight value of such stamps and certificates. However, if the weight value of such stamps and certificates is greater than his excess inventory as adjusted pursuant to § 1407.107, the board shall cancel the excess inventory and issue to him a certificate in weight value equal to the difference.

(b) Application for such reduction of excess inventory or a certificate shall be made on OPA Form No. R-315 on or before April 9, 1943. The application shall state facts establishing compliance with the requirements of paragraph (a) of this section and such other information as the board may require. The application shall be accompanied by the stamps and certificates to be surrendered and such stamps shall be pasted on cards as prescribed by § 1407.142.

[§ 1407.120 added by Amendment 38, 8 F.R. 1288, effective 1-27-43. Paragraph (d) added by Amendment 62, 8 F.R. 6626, effective 5-18-43]

[§ 1407.121 as amended by Amendment 38]

§ 1407.122 Records of primary distributors. The primary distributor shall preserve for a period of 2 years at his principal business office records of all sugar delivered by him, the persons to whom such deliveries were made and the amounts thereof, the serial numbers of all certificates received therefor, the weight value of such certificates, and the amount of sugar delivered against them. The primary distributor shall, in each month, send to the State Director a report of all deliveries made to the Army or Navy or any of the persons or agencies listed in paragraph (b) of § 1407.183.

Sugar Purchase Certificates, War Ration Books, War Ration Stamps and Sugar Ration Checks

§ 1407.140 *Use of checks by depositors and non-depositors.* Notwithstanding anything to the contrary contained in Rationing Order No. 3:

(a) No depositor, and, on and after February 8, 1943, no person required to be a depositor, shall, except in accordance with General Ration Order No. 3A, surrender or transfer stamps or certificates which are valid for deposit.

(b) Whenever Rationing Order No. 3 requires or authorizes the surrender or transfer of stamps or certificates to a person, other than a bank for deposit, and such stamps or certificates are valid for deposit, a depositor shall not surrender or transfer such stamps or certificates but shall instead, under the same circumstances and with the same effect, issue to such person a check, valid for deposit, in weight value equal to such stamps or certificates.

(c) Whenever Rationing Order No. 3 authorizes the delivery of sugar upon the surrender or transfer of stamps or certificates, such delivery may be made to a depositor upon receipt, by the person making the delivery, of a check valid for deposit issued to him by the depositor and equal in weight value to such stamps or certificates.

[Paragraph (c) as amended by Amendment 42, 8 F.R. 2432, effective 3-2-43]

(d) A person who neither is nor is required to be a depositor to whom a check is issued by a depositor or to whom a check is transferred by endorsement may transfer such check by endorsement to any person to whom and for any purpose for which stamps or certificates are authorized to be surrendered by Rationing Order No. 3.

[Paragraph (d) as amended by Amendment 58, 8 F.R. 5846, effective 5-10-43]

(e) A depositor who has received stamps, certificates or checks from a registering unit or institutional user establishment may issue to it a check in weight value equal to the sugar which he has not delivered against such stamps, certificates or checks, but which he is then authorized to deliver to such registering unit or institutional user establishment against such stamps, certificates or checks.

[Paragraph (e) as amended by Amendment 44, 8 F.R. 2675, effective 3-1-43]

(f) A depositor who has received stamps, certificates or checks as authorization for the delivery of sugar by him may not, except as provided in paragraph (e), issue a check against any part of the credit created by their deposit except to the extent that he has delivered sugar against them.

(g) Whenever Rationing Order No. 3 refers to the delivery or acquisition of sugar (including the replenishment of inventory), upon or without the receipt or surrender of stamps or certificates, the issuance of checks by a depositor or, in the case of a person who neither is nor is required to be a depositor, the transfer of checks by endorsement shall be deemed to be included in such reference, unless the context shall otherwise require.

[Paragraph (g) as amended by Amendment 58, 8 F.R. 5846, effective 5-10-43]

(h) No person may accept stamps, certificates, or checks which he knows or has reason to believe are transferred or surrendered in violation of this section.

[§ 1407.140 added by Amendment 38, 8 F.R. 1288, effective 1-27-43. Paragraph (h) added by Amendment 42, 8 F.R. 2432, effective 3-2-43]

§ 1407.141 *Nature and validity of certificates and stamps.* (a) A certificate or stamp may be transferred only for the purpose of authorizing the consumer or registering unit to whom the certificate or stamp was issued to take delivery of the amount of sugar specified on the certificate or assigned to the stamp in § 1407.243, Schedule C of Rationing Order No. 3, and to permit the registering unit to which the certificate or stamp has been surrendered to take delivery of sugar in order to replenish its sugar inventory. Stamps in the hands of a consumer are valid only if attached to a War Ration Book.

(b) Each stamp authorizes delivery of sugar to a consumer only during the ration period assigned to such stamp in § 1407.243. A stamp received in accordance with Rationing Order No. 3 by a registering unit, which is neither a depositor nor required to be one, authorizes the registering unit to take delivery of sugar in an amount equal to the weight value of the stamp if such stamp is surrendered to another registering unit or a primary distributor within a month of the close of the ration period assigned to such stamp. A stamp surrendered to a depositor shall be valid for deposit in his account for a period of a month and ten days after the close of the ration period assigned to such stamp: *Provided, however,* That, notwithstanding anything to the contrary contained in Rationing Order No. 3, Stamp No. 12 may, on or before July 31, 1943, be surrendered by a registering unit which is not and is not required to be a depositor to authorize the registering unit to take delivery of sugar and may be deposited on or before August 10, 1943. Except as provided in paragraph (f) of § 1407.140, a depositor may issue checks at any time, against credits created by the deposit of

a stamp. Stamps numbered one through eleven shall not be valid for deposit. If the ration period assigned to a stamp ends on a day which is not the last day of a calendar month and the next calendar month has a day which corresponds thereto, then a "month", as used in this paragraph, is the period from the last day of the ration period to and including the corresponding day of the next calendar month; otherwise it is the period from the last day of the ration period to and including the last day of the next calendar month.

[Paragraph (b) amended by Amendment 38, 8 F.R. 1288, effective 1-27-43, Amendment 69, 8 F.R. 8678, effective 6-22-43, and Amendment 72, 8 F.R. 9458, effective 7-14-43]

(c) (1) A certificate issued on OPA Form R-306 authorizes the person to whom it is issued, if he is not a depositor nor required to be one, to take delivery of sugar if such certificate is surrendered within 60 days from the valid date of the certificate. Such certificate duly transferred by endorsement to a registering unit that is neither a depositor nor required to be one, authorizes the delivery of sugar to such registering unit if such certificate is surrendered within 80 days from the valid date of the certificate. Such certificate duly transferred or issued to a depositor shall be valid for deposit in the account of such depositor for a period of 80 days from the valid date of the certificate. Such certificate is issued before January 27, 1943, which is duly transferred to a registering unit by endorsement authorizes the delivery of sugar and may be deposited within 60 days from the valid date of the certificate or within 30 days from the date contained in the endorsement to such registering unit, whichever is later.

(2) A certificate issued on OPA Form R-1201 authorizes the person to whom it is issued, if he is not a depositor nor required to be one, to take delivery of sugar if such certificate is surrendered not later than the date appearing on the face thereof. Such certificate duly transferred by endorsement to a registering unit that is neither a depositor nor required to be one, authorizes the delivery of sugar to such registering unit if such certificate is surrendered within 20 days from the date appearing on the face thereof. Such certificate duly transferred or issued to a depositor shall be valid for deposit in the account of such depositor for a period of 20 days from the date appearing on the face thereof.

(3) A depositor may, except as provided in paragraph (f) of § 1407.140, issue checks at any time, against credits created by the deposit of a certificate. Certificates which before January 27, 1943, ceased to authorize the delivery of sugar shall not be valid for deposit.

[Paragraph (c) amended by Amendment 54, 8 F.R. 4977, effective 4-22-43, and Amendment 69, 8 F.R. 8678, effective 6-22-43]

(d) A primary distributor receiving certificates, or a registered wholesaler

receiving stamps or certificates, from a registering unit upon request may deliver to such registering unit a quantity of sugar equal to the weight value of the stamps and certificates so received, plus an additional quantity equal to either: (1) an amount, not in excess of 10% of the weight value of the stamps or certificates so received, required to make a total quantity equal to that contained in a Shipping Unit; or (2) an amount not in excess of ninety-nine (99) pounds, required to permit delivery in shipping packages customarily used by the person making the delivery.

If the amount of sugar delivered is greater than the weight value of the certificates and stamps received the person accepting the delivery shall be charged with such excess and shall surrender stamps or certificates of weight value equal to such excess before accepting delivery of any additional sugar from any person.

[Paragraph (d) added by Amendment 5, 7 F.R. 5361, effective 7-11-42]

(e) As used in this section the term "registering unit" includes establishments registered under General Ration Order 5 as Group II and III institutional user establishments.

[Paragraph (e) added by Amendment 44, 8 F.R. 2675, effective 3-1-43]

§ 1407.142 Surrender of certificates and stamps. (a) Certificates or stamps must be surrendered by the consumer or registering unit receiving the sugar to the primary distributor or registering unit delivering the sugar at or before the time of delivery. A stamp must be detached by the consumer or the person acting on his behalf from the War Ration Book of the consumer only in the presence of the person making delivery of the sugar. Before a certificate is surrendered, the proper endorsement on the reverse side shall be completed by the holder of the certificate.

(b) A registering unit or primary distributor to which stamps are surrendered by a consumer must paste the stamps on OPA Form No. R-304 (War Ration Stamp Card), or upon a similar card; only stamps bearing the same number may be affixed to the card. When a registering unit surrenders a card for the purpose of authorizing a delivery of sugar to it, the name and address of the registering unit surrendering the card and the name and address of the registering unit, Collector of Customs, or primary distributor to whom the card is being surrendered shall be written on the face or back of the card by the one surrendering the card. Before a card may be surrendered for the purpose of deposit, the person surrendering the card shall, if he affixed the stamps to the card, endorse it by writing his name and address on its face or shall, if he received the card with stamps affixed, endorse it by writing his name on its back.

[Paragraph (b) as amended by Amendment 47, 8 F.R. 3180, effective 3-18-43]

(c) As used in this section the term "registering unit" includes establishments registered under General Ration Order 5 as Group II and III institutional user establishments.

[Paragraph (c) added by Amendment 44, 8 F.R. 2675, effective 3-1-43]

§ 1407.142a Use of coupons. Notwithstanding anything to the contrary contained in Rationing Order No. 3:

(a) Whenever Rationing Order No. 3 authorizes the delivery of sugar to a consumer upon the surrender of stamps or certificates, such delivery may be made upon the surrender by the consumer of coupons equal in weight value to the amount of sugar delivered and bearing the serial number of the consumer's book. The consumer's book shall be presented to the person making the delivery at the time the coupons are surrendered and such person shall make delivery only if the coupons bear the same serial numbers as the book.

(b) A coupon authorizes the delivery of sugar to a consumer in an amount equal to the weight value of such coupon, until February 29, 1944. A coupon received in accordance with Rationing Order No. 3 by a registering unit, which is neither a depositor nor required to be one, authorizes the registering unit to take delivery of sugar in an amount equal to the weight value of the coupon until March 31, 1944. A coupon surrendered to a depositor shall be valid for deposit in the account of such depositor until April 10, 1944.

(c) Whenever a registering unit, primary distributor, or Collector of Customs receives a coupon in accordance with Rationing Order No. 3 it may deliver sugar against such coupon and surrender or deposit such coupon for the same purposes and with the same effect as if such coupon were a stamp, subject, however, to the provisions of this section.

(d) A registering unit, primary distributor, or Collector of Customs to whom coupons are surrendered by a consumer shall enclose such coupons in an envelope and shall surrender or deposit them in accordance with the procedure prescribed for stamps or coupons by General Ration Order 7. Such coupons shall be received, surrendered, or deposited, and sugar may be delivered against them, by a registering unit, primary distributor, or Collector of Customs, only in the same manner, for the same purpose and with the same effect as such registering unit, primary distributor, or Collector of Customs could receive, surrender, deposit, or deliver sugar against stamps of equal weight value.

§ 1407.144 Transfer of establishments.

(a) If an entire establishment including the good will is transferred to a person the sugar inventory of the establishment

may be transferred to such person without the surrender of certificates or stamps.

(b) An establishment acquired by transfer which is continued in substantially the same manner as prior to the transfer shall be entitled to receive certificates at the time of registration and thereafter, and to take deliveries of sugar to the same extent as prior to the transfer. All certificates and stamps held by the establishment at the time of transfer shall be surrendered by the person acquiring the establishment to the Board having jurisdiction over the establishment. At the time of such surrender, if the establishment is being continued, such person may apply for replacement certificates authorizing deliveries of an amount of sugar equal to that authorized by the surrendered certificates and stamps. The application therefor shall be made to the Board upon OPA Form No. R-315 by such person or his authorized agent. Replacement certificates shall be issued, after transfer, only if the establishment is to be continued in substantially the same form.

(c) Registration and application as a new establishment may be made for any establishment denied replacement certificates with the Board having jurisdiction over it.

(d) Upon the liquidation of an establishment, sugar in its possession may be delivered only to persons surrendering certificates or stamps in weight values equivalent to the sugar delivered to them. All certificates or stamps thus received, as well as stamps and certificates otherwise in its possession, shall be surrendered for cancellation by the person in charge of the liquidation to the Board having jurisdiction over the establishment.

(e) In the event of transfer, liquidation, or cessation of operation of an establishment operating as an industrial user and constituting part of a registering unit, any sugar allotment made thereafter to the registering unit shall be reduced by the amount applicable to such establishment.

of an establishment holding certificates or stamps.

(b) Sugar in the possession of any person may be seized pursuant to judicial process or order issued by a court of competent jurisdiction without the surrender of certificates or stamps. Delivery of such sugar may be made to a person other than the one from whom it was taken only upon receipt of certificates or stamps in weight value equal to the amount of sugar delivered. The certificates or stamps thus received shall be surrendered for cancellation to the Board with which the person from whom the sugar was seized is registered.

MEAT, FATS, FISH AND CHEESES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the division of the Federal Register.*

Ration Order 16 is amended in the following respects:

1. Section 3.5 is added to read as follows:

SEC. 3.5. Person may have fish caught by members of his family unit canned by a primary distributor for household

consumption—(a) He may acquire such canned fish point-free. Any person, other than an institutional user, may acquire from a "primary distributor", point-free, "canned fish" produced for him from fish caught by him or by members of his "family unit", if he supplies all the ingredients in an amount necessary to produce such canned fish. (A "family unit" consists of all persons related by blood, marriage, or adoption, who regularly reside in the same household.) Not more than 25 pounds of such canned fish per member may be acquired by or for any family unit under this section in any calendar year. He may consume such fish, and let the members of his household and others who eat at his table consume it, without giving up points. He may acquire such canned fish point-free only if he gives to the primary distributor a signed statement that the fish to be canned were caught by a member of his family unit, together with the names of each member of his family unit. The primary distributor shall retain this statement for one year.

(b) He may sell only for points and must surrender points he gets to the board. He may not sell or transfer any such canned fish unless he gets points equal to the point value of the canned fish so transferred. For this purpose, he need not register or make reports, but must keep a record of any transfer he makes, showing the amount and date of the transfer, and the name and address of the person to whom the transfer is made. If he makes any transfers during any month, he must give up to his board on or before the 10th day of the next month the points received for such transfers.

2. Section 17.7 (a) (9) and (10) are added to read as follows:

(9) Primary distributors who can fish for persons who caught them must retain the statement which those persons are required to furnish (section 3.5 (a)).

(10) Persons who have fish which they caught canned for them must keep records of the canned fish which they transfer (section 3.5 (b)).

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[RO 1F]

TIRE RATIONING REGULATIONS FOR THE TERRITORY OF ALASKA

Preamble: This ration order attempts to satisfy the need in the Territory of Alaska for a tire ration order tailored to the special circumstances existing in Alaska. It is impractical to adopt in Alaska the type of program in effect in the Continental United States because of the great distances and sparse population of Alaska. The order rations new tires and tubes to a stated list of eligibles. The lack of any civilian recapping facilities in the Territory, and the impracticability of obtaining recapping services from the mainland, render it undesirable to attempt any controls over recapping or camelback. Similarly, the lack of a used tire inventory in the Territory and the improbability of obtaining any used tires from the mainland makes it unfeasible to ration used tires. New tires and tubes will be rationed to those persons most essential to the war effort, public health or public safety, and it is expected that in this manner the essential transportation needs of the Territory will be fulfilled.

§ 1315.601 *Tire rationing regulations for the Territory of Alaska.* Under the authority vested in the Office of Price Administration and the Price Administrator of Executive Order 9125, issued by the President on April 7, 1942, by Directive 1 and Supplementary Directive 1-Q of the War Production Board, issued January 24, 1942 and November 6, 1942 respectively, and under the authority vested in me by General Order No. 47 of the Price Administrator, issued March 5, 1943, this Ration Order 1F (Tire Rationing Regulations for the Territory of Alaska), which is annexed hereto and made a part hereof, is hereby issued.

SEC. 3.2 *Jurisdiction of boards.* A board shall have jurisdiction to receive and act upon applications with respect to:

(a) A vehicle normally stationed or garaged within the area served by the

board, unless such vehicle is subject to the jurisdiction of a different board as provided in paragraph (c);

The board shall at all times serve the objectives sought to be accomplished by the tire rationing program and allot certificates for the most vital civilian uses and for uses essential to the war effort.

ARTICLE IV—PROOF OF NEED AND ELIGIBILITY

SEC. 4.1 *General proof of need.* No board shall grant a certificate authorizing any consumer to acquire a new tire or tube, and no consumer shall accept such a certificate, unless the applicant is eligible under either section 4.2 or 4.3 and in addition meets each of the following conditions:

(a) *Immediate need.* That the new tire or tube for which application is made is to equip a vehicle held for use and not for resale and is:

(1) To replace a tire or tube which cannot be repaired for further use, but not as a result of applicant's abuse; or

(2) To replace a lost or stolen tire or tube; or

(3) To equip a vehicle which requires tires or tubes because of alteration or reconstruction; or

(4) To replace a tire or tube delivered as original equipment upon a vehicle, if the tire or tube is not serviceable for the use to which the vehicle is to be put.

(b) *No abuse or neglect.* That the applicant has not in any manner abused or neglected or permitted to be abused or neglected the tire or tube which he seeks to replace. The board may consider among other things, as evidence of tire abuse, that the vehicle for which a certificate is sought has been operated in excess of the applicable speed limit or for unnecessary purposes or when other means of transportation are available.

(c) *Ply construction.* That, if the application is for a certificate for a new passenger-type tire of six or more ply construction, the vehicle upon which the tire is to be mounted cannot be operated satisfactorily in the use to which it is to

be put with a tire of less than six-ply construction.

(d) *No available tire or tube.* That the applicant, other than a Federal, Territorial, municipal or foreign Government or government agency, does not own or control a tire or tube, other than tires or tubes mounted upon vehicles in current use (including one spare for each size wheel per vehicle) which can be used, or repaired for use, in lieu of the tire or tube sought to be replaced. In computing the number of tires or tubes owned or controlled, applicant need not include tires or tubes reported on OPA Form R-17 or R-17 (Revised), or emergency reserves acquired under section 4.3.

(e) *Condition of vehicle.* That the vehicle for which application is made is capable of operation without abuse of tires and is not in such a condition of disrepair as to prevent its operation for the purpose stated in the application.

(f) *Comparative need.* That the issuance of the certificate to the applicant will not deprive other applicants of new tires or tubes needed to perform functions deemed by the board to be more essential to the war effort, public health or public safety than the functions performed by the applicant.

(g) *Passenger-type tires unavailable.* That, if application is made for a truck-type tire, a passenger-type tire of suitable size is not available.

(h) *No other vehicle available.* That the vehicle for which application is made cannot be replaced by another vehicle owned or operated by, or under the control of the applicant, and which is already equipped with serviceable tires.

Any applicant hereunder must present to the board a certificate from his superior stating that:

No certificate shall be issued hereunder unless the applicant presents with his application a statement from his commanding officer which sets forth the following:

(i) The application is for new tires or tubes for necessary transportation between residence and post of duty (but not for transfer from post to post), or on official business;

(ii) No quarters can be provided for the applicant at his post of duty or where his work is to be performed, or applicant's duties require frequent travel on official business;

(iii) No other practicable means of transportation are available and no military vehicle can be supplied for applicant's use; and

(iv) The commanding officer will take all reasonable steps to insure that the applicant will limit his use of the vehicle to the purpose for which the application is made except for a minimum incidental use for necessary personal purposes other than pleasure driving, and that every effort is made by the applicant to transport as many passengers as possible consistent with the capacity of the vehicle.

(21) Transportation of authorized representatives of government, management or labor, to, from, between, or within

establishments essential directly or indirectly to the war effort, for the purpose of performing at such establishments services which are directly related to the prevention or settlement of labor grievances and disputes, or transporting workers to such establishments, only if alternative means of transportation are not adequate.

(22) Transportation of the following persons:

(vii) Civilians from their homes for purposes of evacuation, in the interest of their safety and to serve military purposes, or to their homes after evacuation, pursuant to orders of governmental or military authorities.

(b) A certificate for new tires or tubes may also be granted for any other vehicle which satisfies the conditions of section 4.1 if it performs functions found by the Board to be essential to the community, and if there are no pending applications for vehicles eligible under paragraph (a).

SEC. 4.3 *Emergency Reserves*—(a) *Who may apply for emergency reserve*. The following persons may apply for an emergency reserve of new tires and tubes:

(1) Any person engaged in a project for or on behalf of the Army or Navy of the United States.

(2) Any person engaged in an industrial, extractive, construction, repair or

maintenance project essential to the war effort.

(2) That he has satisfied the applicable provisions of section 4.1.

(c) *Vehicles for which emergency reserve may be obtained*. An emergency reserve of new tires and tubes may be obtained for any of the applicant's trucks which are stationed or garaged in an area which is remote from an adequate source of supply of new tires and tubes.

(d) *Amount of emergency reserve*. Certificates shall be issued for the number of new tires or tubes required by the applicant in order to maintain a supply equal to ten (10) percent of the running wheels of trucks which meet the requirements of this section. This supply is in addition to the tires and tubes on running wheels and allowable spares for trucks operated by the applicant. In making the computation under this section, a dual wheel shall be considered as two wheels.

SEC. 4.4 *Allotments to dealers*. The Director may, whenever he determines that inventories of new tires or tubes in dealer stocks plus Parts B of certificates authorizing replenishment of dealer stocks are insufficient to meet the essential needs of the territory, issue certificates on Part B of OPA Form R-2 to dealers or to persons who intend in good faith to become dealers authorizing the acquisition of new tires or tubes in amounts sufficient to satisfy the essential needs of the territory.

ARTICLE V—APPLICATIONS AND CERTIFICATES

SEC. 5.1 *Applications*—(a) *Who may execute and file*. Any person may file with the board having jurisdiction an application for a certificate authorizing the acquisition of new tires or tubes. Application may be made by an agent; but if the agent is not an employee of the applicant, he may sign the application only if the applicant for whom he is acting is physically unable to sign or is outside the area served by the board. No member or employee of the board to whom application is made and no authorized tire inspector shall act as agent of an applicant. The board may require that principal and agent, or owner and operator join in an application.

(b) *Contents of application*. Each applicant shall set forth (1) facts showing jurisdiction of the board, (2) facts showing need and eligibility for the new tires or tubes for which application is made; and (3) such additional information and commitments as may be required by the application or by the board.

(c) *Certification by applicant*. The applicant shall, in his application, state the true and complete facts required by the application or the Board to be set forth therein, and shall certify such facts. If an application is made by an agent, both the principal and agent shall be

bound by and deemed to have knowledge of all statements set forth in the application.

SEC. 5.2 *Filing of applications*—(a) *New tires and tubes for consumers*. Applications for certifications authorizing the acquisition of new tires or tubes (other than to establish, increase or replenish an emergency reserve) shall be filed with the board having jurisdiction under section 3.2. A separate application must be filed on OPA Form R-1 for each vehicle.

(b) *Emergency reserve for consumers*. Applications for certificates authorizing the acquisition of new tires or tubes to establish, increase or replenish an emergency reserve shall be filed on OPA Form R-19 with the board for the area in which the applicant's principal place of business is located. If the applicant changes the location of his principal place of business, subsequent applications shall be filed with the Board for the area in which his new principal place of business is located and the records of the applicant's prior applications shall be forwarded to such Board.

(c) *Allotment to dealers*. Applications for allotments shall be made by a dealer in writing to the Director, and shall set forth such information as may be required by the Director.

SEC. 5.3 *Certification by inspector prior to filing of application*—(a) *Inspection of tires and tubes*. No consumer may file an application for a certificate, and no such application shall be considered by a board, until an inspector authorized by the Office of Price Administration has currently inspected the tires or tubes to be replaced and has executed and signed the "Certification by Inspector" contained in OPA Form R-1. This paragraph shall not apply when application is made to acquire a tire or tube necessary to equip an altered or reconstructed vehicle, or a vehicle not equipped with the number of tires permitted in section 4.1 (d), or to replace a lost or stolen tire or tube, or to establish or increase an emergency reserve, or when a board finds that inspection is not feasible because of great distances in which event the board shall require the applicant to sign an affidavit in such form as the Director has authorized.

(b) *Thorough inspection required*. No inspector may certify any fact concerning the condition of a tire or tube without making a personal and adequate inspection to determine such fact.

(c) *No compensation to be paid for inspection*. No applicant may pay any compensation for the certification or the inspection required by this section, except that sums may be fixed by a board as payment for the service of removing and replacing a tire when such service is necessary for inspection purposes, not in excess of the following:

	Type of tire	Maximum fee
(1) Passenger car tires, each		\$1.00
(2) Small truck tires (7.50 20 or smaller) each		1.00
(3) Large truck tires (larger than 7.50 20) each		2.00
(4) Additional charge for removing inside dual truck tires (larger than 7.50 20)		1.00

SEC. 5.4 Investigation of facts by boards—(a) *Power of the board.* Before issuing a certificate the board may require such assurances and proof of such facts as it may deem necessary to determine whether an applicant should be issued a certificate. For this purpose the board may make inquiries and investigations and may require an applicant to appear in person or by agent at the office of the board at a designated time and supply such additional evidence and information and furnish such records and affidavits as may relate to the application.

(b) *Additional information.* If the applicant is applying for new tires or tubes to be mounted on a vehicle which has less than the number of tires and tubes permitted by section 4.1 (d) and which he has purchased or contracted to purchase, the board shall require him to submit together with his application an affidavit from the vendor of the vehicle stating in full the reasons why the vehicle is not equipped with a sufficient number of tires or tubes. The board must be satisfied from such an affidavit before it may grant a certificate that the vendor is not responsible for the lack of a sufficient number of tires or tubes for such vehicle.

SEC. 5.5 Notation of reasons for action. Whenever the board acts upon an application, it shall note the reasons for its action upon the application. If the application is granted, the number and type of new tires or tubes shall be noted upon the application.

SEC. 5.6 Form of certificates to be issued—(a) *By a board.* The board may issue to an applicant who has established need and eligibility under this ration order a certificate on OPA Form R-2 authorizing an applicant to acquire new tires or tubes.

(b) *By the Director.* The Director may issue a certificate on OPA Form R-2 to a dealer who is eligible for an allotment of new tires or tubes.

SEC. 5.7 Certificates non-transferable. No certificate or any part thereof may be transferred except as authorized by this ration order or by the Office of Price Administration, or in exchange for new tires or tubes.

SEC. 5.8 Execution and issuance of certificate—(a) *Execution of certificates.* It shall be the responsibility of the board prior to issuing any certificate to fill in Parts A and B of the certificate setting forth the information required. It shall also be the responsibility of the board to indicate on Parts C and D of the certificate the number of the board and its address. No certificate shall be valid unless Part A is signed by the issuing officer of the board, who may be either a member of the board or one of its clerks designated to act as issuing officer.

(1) The board shall indicate on the certificate the tires or tubes (including scrap tires or tubes) which the applicant must turn in. The applicant shall turn in all tires and tubes to be replaced, except when he can establish that he has no tires or tubes to turn in because he is acquiring a tire or tube necessary to

equip a vehicle not equipped with the number of tires or tubes permitted by section 4.1 (d), replacing a lost or stolen tire or tube, is a government agency forbidden by law to make such disposition, is establishing or increasing an emergency reserve, or when the board waives this requirement because the turning in would be impracticable.

(2) The board shall indicate on the certificate the exact number, type and size of the new tires or tubes which may be acquired in exchange for the certificate.

(b) *Issuance of certificates.* When all of the foregoing steps have been taken, the board shall issue the certificate by delivering or mailing it to the applicant or his agent. If the certificate to be issued by the board is for implement tires, the board shall mark Part B thereof "good for implement or tractor tires only."

SEC. 5.9 Action by certificate holders—(a) *Use of certificate.* A certificate properly executed and issued may be used by the person to whom it was issued within the time and for the purpose specified thereon. After the expiration date thereon, the certificate shall be void and the applicant shall surrender it to the issuing board.

(b) *Replaced tires or tubes to be turned in.* If the certificate indicates that a tire or tube being replaced must be turned in, the applicant shall, before acquiring from a dealer any new tire or tube in exchange for the certificate, turn in the tire or tube to be replaced to such dealer, except in the case of purchase by mail. If the applicant acquires a new tire or tube by mail, he shall within five days thereafter transfer the replaced tire or tube to a dealer.

(c) *Signing of certificates.* The applicant or his agent shall sign and execute the appropriate portions of the certificate in accordance with the instructions thereon, prior to acquiring the new tires or tubes specified thereon. The same person shall sign Parts B, C and D of OPA Form R-2 where the signature of the certificate holder is required. No member or employee of the board issuing the certificate, no authorized tire inspector, and no dealer shall act as agent of the applicant in signing Parts A, B, C or D of OPA Form R-2.

SEC. 5.10 Action by suppliers—(a) *Turn in of tire or tube prerequisite to transfer.* If the applicant is required to turn in a tire or tube, no dealer shall transfer any new tire or tube pursuant to the certificate until the applicant has turned in to him the tire or tube to be replaced, except in the case of purchase by mail.

(b) *Certificate to be completed.* No dealer shall transfer new tires or tubes until both he and the applicant have properly signed and executed the certificate in accordance with the instructions thereon.

(c) *Delivery pursuant to certificate.* If the foregoing requirements have been fulfilled, the dealer to whom the certificate has been surrendered, shall deliver to the person indicated thereon, or to

his agent, no more than the number and the exact type and size of new tires or tubes set forth on the certificate.

SEC. 5.11 Splitting of certificates. The holder of a certificate or part of a certificate who is unable to acquire from one supplier all the new tires or tubes which he has been authorized to acquire, may return the certificate to the issuing board and the board shall thereupon cancel the returned certificate and issue as many certificates as are necessary to permit the acquisition of such new tires or tubes from several suppliers.

SEC. 5.12 Revocation of certificates. Any certificate, part of a certificate or authorization issued under this ration order shall be subject to revocation, cancellation, suspension, correction or modification by a board or other agent designated for this purpose by the Office of Price Administration.

SEC. 5.13 Refusal of certificate. If a board or other agent designated by the Office of Price Administration finds after due notice and hearing that an applicant has violated any provision of this ration order, the board may refuse to issue a certificate to the applicant and may declare that he shall not be eligible to receive a certificate for such period as it shall deem appropriate in the public interest. In such case, the board or such other agent shall serve upon the applicant a written statement of the grounds upon which the certificate was refused and the period for which he is declared ineligible.

ARTICLE VI—PROHIBITED AND PERMITTED TRANSACTIONS

Any consumer may also change the physical location of, use or mount new tires or tubes which have been acquired on certificate or authorization issued under this order or the Revised Tire Rationing Regulations.

PART 1341—CANNED AND PRESERVED FOODS
[Rev. MPR 233, Amdt. 6]

DRIED AND CANNED APPLES AND APPLE PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

Revised Maximum Price Regulation No. 233 is amended in the following respect:

1. A new § 1341.430 is added to read as follows:

§ 1341.430 Temporary maximum prices for certain apple products made from apples of the 1943 crop. The maximum prices established by this section apply only until November 15, 1943.

(a) The processor's maximum price per dozen containers or other unit of sale, f. o. b. factory, for each kind, grade, style of pack, and container type and size of sweet cider made from whole apples of the 1943 crop, shall be figured as follows: The processor shall:

(1) *Determine the base price.* First, the processor shall figure the weighted average price per dozen or other unit, f. o. b. factory, for the item being priced during the first 60 days after the beginning of the 1941 pack. (This average price will be called the "base price".) "Weighted average price" means the total gross sales dollars charged for the item divided by the number of dozens of containers or other units of sale sold. All sales made in the regular course of business during the base period (first 60 days after the beginning of the 1941 pack) shall be included, regardless of the date of delivery, except sales contracts made with government procurement agencies. Sales contracts made at times other than during the base period shall not be included, even though delivery was made during the period.

(2) *Adjust the base price.* Next, the processor shall multiply the base price by 1.10.

(3) *Subtract the 1941 raw fruit cost.* Then, the processor shall subtract from the result of this multiplication the 1941 weighted average raw fruit cost per dozen or other unit of the finished product. This is figured by dividing the total amount paid for apples of the 1941 crop used in processing the product by the total number of tons or other units of the raw fruit purchased, all converted into cost per dozen or other unit of this finished product.

(4) *Add the 1943 raw fruit cost.* Next, the processor shall add the 1943 weighted average raw fruit cost per dozen or other unit of the finished product. The amount to be added shall be figured as follows. The processor shall:

(i) Divide the total amount paid for apples of the 1943 crop used in processing the product by the total number of tons or other units of the raw fruit purchased. However, in making this calculation, the processor shall figure on the basis of not less than 75% of his total purchases of

the 1943 crop, and he shall not include amounts paid in excess of the respective amounts shown by the following tables:

Grades	If the processor buys this grade:		
	He may not include more than this price per cwt.	Class A varieties	Class B varieties
Above U. S. No. 1 Cannery Grade, 2½ inch and up (and "C" grade as established under Washington & Oregon State grades)	\$3.10	\$2.50	
U. S. No. 1 Cannery Grade, 2½ inch and up (and "C" grade as established under Washington & Oregon State grades)	3.10	2.50	
U. S. No. 2 Cannery Grade, 2½ inch and up	1.65	1.50	
Apples which grade less than U. S. No. 2 Cannery Grade (Ciders)	1.00	1.00	

"Class A Varieties" means the following varieties:

New York—Baldwin, R. I. Greening, Northern Spy, Twenty ounce, Northwestern Greening, Grimes Golden, Stayman, King and Stark.

Pennsylvania, Maryland, West Virginia, and Virginia—York Imperial, Stayman, Golden Delicious, Grimes Golden.

Oregon and Washington—Golden Delicious, Winesap, Spitzenberg, Arkansas Black, Newtown, Rome Beauty, Stayman, Ortley and Jonathan.

California—Gravenstein, Bellflower, Newtown, Baldwin, Northwest Greening, Rhode Island Greening, Arkansas Black, Black Twig, Jonathan, Golden Delicious, Rome Beauty and Spitzenberg.

All other States—Golden Delicious, Northern Spy, R. I. Greening, Grimes Golden, Stayman, Rome Beauty, Baldwin, Wegener, Northwest Greening, Twenty ounce and Stark.

"Class B Varieties" means all other varieties of apples used for processing.

If the processor makes more than this product: price per cwt.
Sweet cider \$1.00

(ii) Divide the figure obtained by making the calculation in paragraph (i) by the weighted average cost, per ton or other unit of the raw fruit, of apples of the 1941 crop used in the product.

(iii) Multiply the figure obtained by this division by the 1941 weighted average raw fruit cost per dozen or other unit of the finished product (the figure which was subtracted under paragraph (3) above).

The processor's maximum price is obtained by adding the result of this multiplication to the figure obtained in paragraph (3), above.

(b) The grower-owned cooperative processor shall figure its maximum price for any item covered by this section by using the pricing method set forth in paragraph (a), except that in making the adjustments required by paragraphs (a) (3) and (a) (4), he shall subtract from the result of the multiplication made under paragraph (a) (2) and 1941 weighted average raw fruit cost of his most closely non-cooperative competitor and add to the difference so obtained the 1943 weighted average raw fruit cost of the same competitor (both per dozen or other unit of the finished product).

(c) Instead of notifying his processor as set forth in § 1341.421, the processor shall supply notices for the items covered by this section, as follows:

Notification of change in maximum prices: With the first delivery after October 28, 1943, of any item covered by this section, and in any case where a maximum price once established pursuant to it is later changed, the processor and each distributor other than a wholesaler or retailer shall supply each wholesaler and retailer purchasing from him with notice as set forth below:

You must refigure your ceiling price on the first delivery of this item to you on or after October 29, 1943.

D & D SHIRT CO.

ORDER DENYING PETITION

Order denying petition of the D & D Shirt Company of Northampton, Pennsylvania, for review of the determination cancelling special certificates for the employment of learners.

Whereas on March 5, 1943, pursuant to section 14 of the Fair Labor Standards Act of 1938 and § 522.6 and 522.7 of the regulations issued thereunder, the D & D Shirt Company of Northampton, Pennsylvania, was by registered mail given notice to show cause why special certificates issued to it on September 11, 1941 and September 10, 1942, permitting the employment of learners at subminimum wage rates, should not be cancelled; and

Whereas due notice having been given, public hearings were held in New York, New York, on March 27, April 24, and July 14, 1943 before Merle D. Vincent, a duly authorized representative of the Administrator of the Wage and Hour Division of the Department of Labor, who received evidence and heard oral argument on the question whether the certificates should be cancelled; and

Whereas, on the evidence presented at the hearings, the said Merle D. Vincent determined that the special certificate issued to the D & D Shirt Company for the period from September 11, 1941 to September 11, 1942 be cancelled because of violation of its terms as of the date of the certificate's first violation which was found to be the date of its issue and that the special certificate issued for the period from September 10, 1942 to September 10, 1943 be cancelled as of the

date of its issue because it was obtained by fraud and misrepresentation; and filed his findings and determination with the Administrator on July 24, 1943; and

Whereas after publication in the FEDERAL REGISTER (8 F.R. 10777) of notice of said cancellation, a petition for review was duly filed by the D & D Shirt Company of Northampton, Pennsylvania, pursuant to the provisions of § 522.13 of the aforesaid regulations; and

Whereas the undersigned, a person having taken no part in the action sought to be reviewed and being duly authorized by the Administrator as his representative to examine and determine whether the said petition should be allowed, has examined and considered the issues raised by said petition; and has found that the findings and determination of the Administrator's representative are supported by the record of the proceeding in this case.

Now, therefore, the petition for review is hereby denied, and it is ordered and directed that the findings and determination of July 24, 1943 shall become final and that the special certificate issued to the D & D Shirt Company of Northampton, Pennsylvania, authorizing the employment of learners during the period from September 11, 1941 to September 11, 1942 be cancelled as of September 11, 1941 and that the special certificate issued to the same employer authorizing employment of learners during the period from September 10, 1942 to September 10, 1943 be cancelled as of September 10, 1942, and that the cancellation of said certificates shall become effective on the day of the publication of this order in the FEDERAL REGISTER.

Signed at New York, New York, this 27th day of October 1943.

F. GRANVILLE GRIMES, JR.,
Authorized Representative
of the Administrator.

3. Each of the operators shall forthwith file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order.

The coordination of operations directed by this order shall be subject to the operators possessing or obtaining the requisite operating authority. OFFICE OF PRICE ADMINISTRATION.

[Order 3 Under MPR 291]

CERTAIN SYRUPS AND MOLASSES

AUTHORIZATION OF ADJUSTABLE PRICING

Order No. 3 under § 1351.1361 of Maximum Price Regulation No. 291. Certain

¹ Filed as part of the original document.

syrups and molasses. Order authorizing adjustable pricing.

A petition for amendment to Maximum Price Regulation 291 requiring extensive consideration and requesting changes in the applicable maximum prices set out therein is pending. In addition thereto, requests have been received from sellers of cane syrup covered by that regulation and from sellers of first and second molasses, maximum prices for which are still determined under the General Maximum Price Regulation, for increases in maximum prices and for an order permitting adjustable pricing upon deliveries made during the pendency of action upon the petition and requests. Producers of Georgia cane syrup and Louisiana cane syrup, as well as producers of first molasses and second molasses (boilbacks) are reluctant to carry on production and distribution pending the consideration of the petition and requests. Sales in the industry, which is now in its period of seasonal production, have almost completely ceased.

The Administrator has found that authority to use adjustable pricing pending final action on the petition and the requests for increases in the maximum prices of Louisiana cane syrup, Georgia cane syrup, first molasses and second molasses is necessary to promote the production and distribution of these essential products. It is further found that such authorization will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328. Therefore, in accordance with § 1351.1361 of Maximum Price Regulation 291 and in accordance with § 1499.19a of the General Maximum Price Regulation, as amended: *It is ordered*, That:

(a) Producers of Louisiana cane syrup and Georgia cane syrup subject to Maximum Price Regulation No. 291 and producers of first molasses and second molasses (boilbacks) subject to the General Maximum Price Regulation may sell and deliver and purchasers may buy and receive Louisiana cane syrup, Georgia cane syrup, first molasses and second molasses (boilbacks) at prices to be adjusted upward after delivery to amounts for each not to exceed the maximum price on each established at the time of final action by the Administrator upon pending petitions and requests for changes in maximum prices, such action to be taken by denial of petition and requests or amendment to Maximum Price Regulation 291. Prior to such final action no payment for any of these commodities shall be made or received in excess of the maximum prices prevailing at the time of delivery.

(b) This order shall automatically be revoked upon the change by the Office of Price Administration of maximum prices for producers' sales of Louisiana cane syrup, Georgia cane syrup, first molasses or second molasses or upon denial of the petition and requests. It may be revoked or amended by the Price Administrator at any time.

This order shall become effective October 30, 1943.

Issued this 30th day of October 1943.

GEORGE J. BURKE,
Acting Administrator.

SECURITIES AND EXCHANGE COMMISSION.

THE RENAUD CORPORATION

FINDINGS AND ORDER REVOKING REGISTRATION

In the matter of the Renaud Corp., 120 Liberty Street, New York, N. Y.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 28th day of October A. D., 1943.

1. The Renaud Corporation (the "registrant") is registered as a dealer pursuant to section 15 of the Securities Exchange Act of 1934.

2. The Commission, on the basis of facts reported to it, instituted a proceeding pursuant to section 15 (b) of the Securities Exchange Act of 1934 to determine whether the registration of the registrant should be revoked.

3. After due notice a hearing was held before a trial examiner. The registrant did not appear and was not represented at the hearing, but it acknowledged in writing service of adequate notice, waived a hearing, and requested the withdrawal of its registration.

4. The trial examiner filed an advisory report in which he found that on May 25, 1943, a judgment was entered in the Supreme Court of the State of New York permanently enjoining the registrant (and its principal officer and sole stockholder, Alfred R. Risse), among other things, from engaging in the sale of securities within and from the State of New York. This injunction was based upon a complaint by the Attorney General of New York charging (among other things) that the registrant had misappropriated customers' funds, converted their securities to its own use and benefit, and had otherwise defrauded customers in that it was operating while insolvent and concealed its insolvency. The decree was entered on the consent of the registrant.

5. On an independent review of the record, we adopt the trial examiner's findings and find further that revocation of the registration of The Renaud Corporation as a dealer is in the public interest, and that the registrant's request for withdrawal from registration should be denied.

On the basis of the foregoing, and pursuant to section 15 (b) of the Securities Exchange Act of 1934,

It is ordered, That the registration of The Renaud Corporation as a dealer be, and it hereby is, revoked, and that the request of The Renaud Corporation to withdraw its registration as a broker be, and it hereby is, denied.

By the Commission.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 30th day of October, A. D. 1943.

General Capital Corporation ("General"), a registered open-end investment company, has filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 for an order exempting it from the provisions of section 22 (d) of said Act to permit the consummation of a proposed transaction with Old Colony Investment Trust ("Old Colony"), a registered closed-end investment company, in which General proposes to issue its shares without the imposition of a sales load.

It is ordered, Pursuant to section 40 (a) of said Act, that a hearing on the aforesaid application be held on November 10, 1943, at 10:00 a. m., e. w. t., in Room 318 of the Securities and Exchange

Notice of such hearing is hereby given to General Capital Corporation, Old Colony Investment Trust and to any other persons whose participation in such proceeding may be in the public interest or for the protection of investors.
